Sec. 372.014. ASSESSMENT PLAN; PAYMENT BY EXEMPT JURISDICTIONS. (a) An assessment plan must be included in the annual service plan.

(b) The municipality or county is responsible for payment of assessments against exempt municipal or county property in the district. Payment of assessments by other exempt jurisdictions must be established by contract. An assessment paid by the municipality or county under this subsection is considered to have been paid by special assessment for the purposes of Subsection (a).

- (1) equally per front foot or square foot;
- (2) according to the value of the property as determined by the governing body, with or without regard to improvements on the property; or
- (3) in any other manner that results in imposing equal shares of the cost on property similarly benefitted.

(c) The governing body may establish by ordinance or order:

(1) reasonable classifications and formulas for the apportionment of the cost between the municipality or county and the area to be assessed; and

(2) the methods of assessing the special benefits for various classes of improvements.

(d) The amount of assessment for each property owner may be adjusted following the annual review of the service plan.

The roll must state the assessment against each parcel of land in the district, as determined by the method of assessment chosen by the municipality or county under this subchapter.

(b) The governing body shall file the proposed assessment roll with the municipal secretary or other officer performing the functions of the municipal secretary or in a district formed by a county, the county tax assessor-collector. The proposed assessment roll is subject to public inspection. The governing body shall require the municipal secretary or other officer or county tax assessor-collector to publish notice of the governing body's intention to consider the proposed assessments at a public hearing. The notice must be published in a newspaper of general circulation in the municipality or county before the 10th day before the date of the hearing. (c) When the assessment roll is filed under Subsection (b), the municipal secretary or other officer shall mail to the owners of property liable for assessment a notice of the hearing. The notice must contain the information required by Subsection (b) and the secretary or other officer shall mail the notice to the last known address of the property owner. The failure of a property owner to receive notice does not invalidate the proceeding.

(a) At or on the adjournment of the hearing referred to by Section 372.016 on proposed assessments, the governing body of the municipality or county must hear and pass on any objection to a proposed assessment. The governing body may amend a proposed assessment on any parcel.

(b) After all objections have been heard and the governing body has passed on the objections, the governing body by ordinance or order shall levy the assessment as a special assessment on the property. The governing body by ordinance or order shall specify the method of payment of the assessment. The governing body may defer an assessment until a date the governing body specifies in the ordinance or order. The governing body may provide that assessments be paid in periodic installments, at an interest rate and for a period approved by the governing body. The provision that assessments be paid in periodic installments may, but is not required to, result in level annual installment payments. The installments must be in amounts necessary to meet annual costs for improvements and must continue for:

- (1) the period necessary to retire the indebtedness on the improvements; or
- (2) the period approved by the governing body for the payment of the installments.

Sec. 372.0175. CONTRACTS FOR COLLECTION OF ASSESSMENTS. The governing body of a municipality or county may contract with the governing body of another taxing unit, as defined by Section 1.04, Tax Code, or the board of directors of an appraisal district to perform the duties of the municipality or county relating to collection of special assessments levied under this subchapter.

Added by Acts 2011, 82nd Leg., R.S., Ch. 1211 (S.B. 422), Sec. 1, eff. June 17, 2011.

Sec. 372.018. INTEREST ON ASSESSMENT; LIEN. (a) An assessment bears interest at the rate specified by the governing body of the municipality or county beginning at the time or times or on the occurrence of one or more events specified by the governing body. If general obligation bonds, revenue bonds, time warrants, or temporary notes are issued to finance the improvement for which the assessment is assessed, the interest rate for that assessment may not exceed a rate that is one-half of one percent higher than the actual interest rate paid on the debt. Interest on the assessment between the effective date of the ordinance or order levying the assessment and the date the first installment is payable shall be added to the first installment. The interest on any delinquent installment shall be added to each subsequent installment until all delinquent installments are paid.

(b) An assessment or reassessment, with interest, the expense of collection, and reasonable attorney's fees, if incurred, is:

- (1) a first and prior lien against the property assessed;
- (2) superior to all other liens and claims except liens or claims for state, county, school district, or municipality ad valorem taxes; and
- (3) a personal liability of and charge against the owners of the property regardless of whether the owners are named.

(c) The lien is effective from the date of the ordinance or order levying the assessment until the assessment is paid.

(d) The lien runs with the land and that portion of an assessment payment that has not yet come due is not eliminated by foreclosure of an ad valorem tax lien.

(e) The assessment lien may be enforced by the governing body in the same manner that an ad valorem tax lien against real property may be enforced by the governing body. Foreclosure of accrued installments does not eliminate the outstanding principal balance of the assessment. Any purchaser of the property in foreclosure takes the property subject to the assessment lien and any associated obligations.

(f) Delinquent installments of the assessment shall incur interest, penalties, and attorney's fees in the same manner as delinquent ad valorem taxes. The owner of assessed property may pay at any time all or any part of the assessment, with interest that has accrued on the assessment, on any lot or parcel.

Notice must be given and the hearing held under this section in the same manner as required by Sections 372.016 and 372.017.

- (1) a court of competent jurisdiction sets aside an

assessment against the parcel;

(2) the governing body determines that the original assessment is excessive; or

(3) on the written advice of counsel, the governing body determines that the original assessment is invalid.

Sec. 373A.208. PRIVATE SALE TO LAND BANK. (a) Notwithstanding any other law and except as provided by Subsection (f), property that is ordered sold pursuant to foreclosure of a tax lien may be sold in a private sale to a land bank by the officer charged with the sale of the property without first offering the property for sale as otherwise provided by Section 34.01, Tax Code, if:

(1) the market value of the property as appraised by the local appraisal district and as specified in the judgment of foreclosure is less than the total amount due under the judgment, including all taxes, penalties, and interest, plus the value of nontax liens held by a taxing unit and awarded by the judgment, court costs, and the cost of the sale;

(2) the property is not improved with a building or buildings;

(3) there are delinquent taxes on the property for a total of at least five years; and

(4) the municipality has executed with the other taxing units that are parties to the tax suit an interlocal agreement that enables those units to agree to participate in the program while retaining the right to withhold consent to the sale of specific properties to the land bank.

(b) A sale of property for use in connection with the program is a sale for a public purpose.

(c) If the person being sued in a suit for foreclosure of a tax lien does not contest the market value of the property in the suit, the person waives the right to challenge the amount of the market value determined by the court for purposes of the sale of the property under Section 33.50, Tax Code.

(d) For any sale of property under this subchapter, each person who was a defendant to the judgment, or that person's attorney, shall be given, not later than the 60th day before the date of sale, written notice of the proposed method of sale of the property by the officer charged with the sale of the property. Notice shall be given in the manner prescribed by Rule 21a, Texas Rules of Civil Procedure.

(e) After receipt of the notice required by Subsection (d) and before the date of the proposed sale, the owner of the property subject to sale may file with the officer charged with the sale a

written request that the property not be sold in the manner provided by this subchapter.

(f) If the officer charged with the sale receives a written request as provided by Subsection (e), the officer shall sell the property as otherwise provided in Section 34.01, Tax Code.

(g) The owner of the property subject to sale may not receive any proceeds of a sale under this subchapter. However, the owner does not have any personal liability for a deficiency of the judgment as a result of a sale under this subchapter.

(h) Notwithstanding any other law, if consent is given by the taxing units that are a party to the judgment, property may be sold to the land bank for less than the market value of the property as specified in the judgment or less than the total of all taxes, penalties, and interest, plus the value of nontax liens held by a taxing unit and awarded by the judgment, court costs, and the cost of the sale.

(i) The deed of conveyance of the property sold to a land bank under this section conveys to the land bank the right, title, and interest acquired or held by each taxing unit that was a party to the judgment, subject to the right of redemption.

(j) Property sold to and held by the land bank for subsequent resale is eligible for an exemption from ad valorem taxation for a period not to exceed three years from the date of acquisition. Property is eligible for an exemption under this subsection only during the period the property is held by the land bank.

Added by Acts 2005, 79th Leg., Ch. 495 (H.B. 525), Sec. 1, eff. September 1, 2005.

Sec. 373A.209. SUBSEQUENT RESALE BY LAND BANK. (a) Each subsequent resale of property acquired by a land bank under this subchapter must comply with the conditions of this section.

(b) The land bank must sell a property to a qualified participating developer within the three-year period following the date of acquisition for the purpose of construction of affordable housing for sale or rent to low income households. If after three years a qualified participating developer has not purchased the property, the property shall be transferred from the land bank to the taxing units who were parties to the judgment for disposition as

otherwise allowed under the law.

(c) Unless the municipality increases the amount in its plan, the number of properties acquired by a qualified participating developer under this section on which development has not been completed may not at any given time exceed three times the annual average residential production completed by the qualified participating developer during the preceding two-year period as determined by the municipality.

(d) The deed conveying a property sold by the land bank must include a right of reverter so that if the qualified participating developer does not apply for a construction permit and close on any construction financing within the two-year period following the later of the date of the conveyance of the property from the land bank to the qualified participating developer or the expiration of the period specified by the municipality under Section 373A.211(d), the property will revert to the land bank for subsequent resale to another qualified participating developer or conveyance to the taxing units who were parties to the judgment for disposition as otherwise allowed under the law.

Added by Acts 2005, 79th Leg., Ch. 495 (H.B. 525), Sec. 1, eff. September 1, 2005.

(a) The land bank shall impose deed restrictions on property sold to qualified participating developers requiring the development and sale or rental of the property to low income households.

(b) At least 25 percent of the land bank properties sold during any given fiscal year to be developed for sale shall be deed restricted for sale to households with gross household incomes not greater than 60 percent of the area median family income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development.

(c) If property is developed for rental housing, the deed restrictions must be for a period of not less than 20 years and must require that:

(1) 100 percent of the rental units be occupied by and affordable to households with incomes not greater than 60 percent of

area median family income, based on gross household income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development;

(2) 40 percent of the units be occupied by and affordable to households with incomes not greater than 50 percent of area median family income, based on gross household income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development; or

(3) 20 percent of the units be occupied by and affordable to households with incomes not greater than 30 percent of area median family income, based on gross household income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development.

(d) The deed restrictions under Subsection (c) must require the owner to file an annual occupancy report with the municipality on a reporting form provided by the municipality. The deed restrictions must also prohibit any exclusion of an individual or family from admission to the development based solely on the participation of the individual or family in the housing choice voucher program under Section 8, United States Housing Act of 1937 (42 U.S.C. Section 1437f).

(e) Except as otherwise provided by this section, if the deed restrictions imposed under this section are for a term of years, the deed restrictions shall renew automatically.

(f) The land bank or the governing body of the municipality may modify or add to the deed restrictions imposed under this section. Any modifications or additions made by the governing body of the municipality must be adopted by the municipality as part of its plan and must comply with the restrictions set forth in Subsections (b), (c), and (d).

Added by Acts 2005, 79th Leg., Ch. 495 (H.B. 525), Sec. 1, eff. September 1, 2005.

Sec. 373A.211. RIGHT OF FIRST REFUSAL. (a) In this section, "qualified organization" means a community housing development

organization that:

(1) contains within its designated geographical boundaries of operation, as set forth in its application for certification filed with and approved by the municipality, a portion of the property that the land bank is offering for sale;

(2) has developed or rehabilitated at least three single-family homes or duplexes or one multifamily residential dwelling of four or more units in compliance with all applicable building codes within the preceding 10-year period and within the organization's designated geographical boundaries of operation; and

(b) The land bank shall first offer a property for sale to qualified organizations.

(c) Notice must be provided to the qualified organizations by certified mail, return receipt requested, not later than the 60th day before the beginning of the period in which a right of first refusal may be exercised.

That period must be at least 90 days in duration and begin at least three months but not more than 26 months following the date of the deed of conveyance of the property to the land bank.

(f) During the specified period, the land bank may not sell the property to a qualified participating developer other than a qualified organization. If all qualified organizations notify the land bank that they are declining to exercise their right of first refusal during the specified period, or if an offer to purchase the property is not received from a qualified organization during that period, the land bank may sell the property to any other qualified participating developer at the same price that the land bank offered the property to the qualified organizations.

(g) In its plan, the municipality shall establish the amount of

additional time, if any, that a property may be held in the land bank once an offer has been received and accepted from a qualified organization or other qualified participating developer.

(h) If more than one qualified organization expresses an interest in exercising its right of first refusal, the organization that has designated the most geographically compact area encompassing a portion of the property shall be given priority.

(i) In its plan, the municipality may provide for other rights of first refusal for any other nonprofit corporation exempted from federal income tax under Section 501(c)(3), Internal Revenue Code of 1986, provided that the preeminent right of first refusal is provided to qualified organizations as provided by this section.

(j) The land bank is not required to provide a right of first refusal to qualified organizations under this section if the land bank is selling property that reverted to the land bank under Section 373A.209(d).

CHAPTER 374. URBAN RENEWAL IN MUNICIPALITIES**SUBCHAPTER A. GENERAL PROVISIONS**

Sec. 374.001. SHORT TITLE. This chapter may be cited as the Texas Urban Renewal Law.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.002. LEGISLATIVE FINDINGS; INTENT. (a) The legislature finds that slum and blighted areas exist in municipalities in this state and that those areas:

(1) are a serious and growing menace that is injurious and inimical to the public health, safety, morals, and welfare of the residents of this state;

(2) contribute substantially and increasingly to the spread of disease and crime, requiring excessive and disproportionate expenditures of public funds for the preservation of the public health and safety, and for crime prevention, correctional facilities, prosecution and punishment, treatment of juvenile delinquency, and the maintenance of adequate police, fire, and accident protection and other public services and facilities; and

(3) constitute an economic and social liability, substantially impair the sound growth of affected municipalities, and retard the provision of housing accommodations.

(b) For these reasons, prevention and elimination of slum and blighted areas are matters of state policy and concern that may be best addressed by the combined action of private enterprise, municipal regulation, and other public action through approved urban renewal plans. The legislature further finds that the repair and rehabilitation of buildings and other improvements in affected areas, public acquisition of real property, demolition of buildings and other improvements as necessary to eliminate slum or blight conditions or to prevent the spread of those conditions, the disposition of property acquired in affected areas and incidental to the purposes stated by this subsection, and other public assistance to eliminate those conditions are public purposes for which public money may be spent and the power of eminent domain exercised.

(c) It is the intent of the legislature that private enterprise

be encouraged to participate in accomplishing the objectives of urban renewal to the extent of its capacity and with governmental assistance as provided by this chapter.

SUBCHAPTER B. MUNICIPAL POWERS AND DUTIES RELATING TO URBAN RENEWAL

Sec. 374.011. RESOLUTION; ELECTION. (a) Except as provided by Section 374.012, a municipality may not exercise a power granted under this chapter unless:

(1) the governing body of the municipality adopts a resolution that finds that a slum area or blighted area exists in the municipality and that the rehabilitation, the conservation, or the slum clearance and redevelopment of the area is necessary for the public health, safety, morals, or welfare of the residents of the municipality; and

On the date specified in the notice to consider the question, the governing body may order an election on its own motion to consider the resolution. The governing body shall order an election on the question if it receives a petition during the notice period that is signed by at least five percent of the qualified voters of the municipality who own taxable real property included on the tax rolls of the municipality. If the

governing body determines that it is necessary to order an election, it shall give at least 30 days' notice of the election.

(f) Voter approval is not required for preliminary planning of an urban renewal project.

(g) This section does not require further elections,

resolutions, or actions of a municipality that has exercised urban renewal powers under this chapter as of April 27, 1973.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.013. USE OF PUBLIC OR PRIVATE RESOURCES. (a) To further the urban renewal objectives of this chapter, a municipality may formulate a workable program to use appropriate private and public resources, including the resources specified by Subsection (b), to encourage urban rehabilitation, to provide for the redevelopment of slum and blighted areas, or to undertake those activities or other feasible municipal activities as may be suitably employed to achieve the objective of the program. The program must specifically include provisions relating to:

(1) prevention, through diligent enforcement of housing and occupancy controls and standards, of the expansion of blight into areas of the municipality that are free from blight; and

(2) rehabilitation or conservation of slum and blighted areas as far as practicable to areas that are free from blight through replanning, removing congestion, providing parks, playgrounds, and other public improvements, encouraging voluntary rehabilitation and requiring the repair and rehabilitation of deteriorated or deteriorating structures, and the clearance and redevelopment of slum areas.

(b) Each municipality, to the greatest extent determined to be feasible, shall afford the maximum opportunity, consistent with the needs of the municipality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise. A municipality shall consider this objective in exercising powers under this chapter, including:

(1) formulation of a workable program for urban renewal under Subsection (a);

(2) approval of urban renewal plans consistent with the general plan of the municipality;

(3) exercise of zoning power;

(4) enforcement of other laws, codes, and regulations relating to land use, use and occupancy of buildings and improvements, and the disposition of any property acquired; and

(5) provision of necessary public improvements.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.014. MUNICIPAL URBAN RENEWAL PLAN. (a) A municipality may not prepare an urban renewal plan for an area unless the governing body of the municipality has, by resolution, declared the area to be a slum area, a blighted area, or both, and has designated the area as appropriate for an urban renewal project. The governing body may not approve an urban renewal plan until a general plan has been prepared for the municipality. A municipality may not acquire real property for an urban renewal project until the governing body has approved the urban renewal plan as provided by Subsection (d).

(b) Any person may submit an urban renewal plan to the municipality. The governing body, before approving the plan, must submit the proposed plan to the urban renewal agency and the planning commission, if any, for review and recommendations as to the plan's conformity with the general plan for municipal development. The urban renewal agency and the planning commission shall submit written recommendations relating to the proposed urban renewal plan to the governing body within 30 days after the date the plan is received for review. On receipt of those recommendations, the governing body shall hold a hearing relating to the proposed plan as provided by Subsection (c). If recommendations are not proposed within the 30-day period, the governing body may hold the hearing without recommendations.

(c) The governing body must hold a public hearing on the proposed urban renewal plan before it may approve the urban renewal plan. The governing body shall publish notice of the hearing three times in a newspaper of general circulation in the municipality. The first notice must be published before the 30th day before the date of the hearing. The notice must state the time, date, place, and purpose of the hearing, must generally identify the urban renewal area, and must describe the general scope of the urban renewal project under consideration.

(d) After the hearing, the governing body may approve an urban renewal plan if the governing body finds that:

(1) a feasible method exists for the relocation, in decent, safe, affordable, and sanitary accommodations, of families or individuals who will be displaced from the urban renewal area,

without undue hardship to those persons;

(2) the urban renewal plan conforms to the general plan for municipal development; and

(3) the urban renewal plan offers the maximum opportunity, consistent with the needs of the municipality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise.

(e) An urban renewal plan may be modified at any time. If modified after the lease or sale by the municipality of real property within the urban renewal project area, the modification is subject to the rights at law or in equity of the lessee or purchaser, or that person's successor in interest. If a proposed modification affects the street layout, land use, public utilities, zoning, if any, open space, or density of the area, the modification may not be made until it is submitted to the planning commission and a report is made to the governing body as provided by Subsection (b).

(f) After the municipality approves an urban renewal plan, the provisions of the plan that relate to the future use of the affected property and the building requirements applicable to the property control with respect to that property.

(g) If a building in a good state of repair is located in an urban renewal area and may be incorporated into an urban renewal project pattern or plan for that area, the building may not be acquired without the consent of the owner. If the owner of property in an urban renewal area agrees to use the property in a manner that is consistent with the purposes of the urban renewal plan and if improvements to the property do not constitute a fire or health hazard, that property is not subject to the exercise of eminent domain authority. A property owner may contest before the governing body any exercise of eminent domain authority that affects that person's individual ownership and may appeal to the district court. The review on appeal is by trial de novo.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.015. GENERAL MUNICIPAL POWERS RELATING TO URBAN RENEWAL. (a) A municipality may exercise all powers necessary or convenient to carry out the purposes of this chapter, including the power to:

(1) conduct preliminary surveys to determine if undertaking an urban renewal project is feasible;

(2) conduct urban renewal projects within its area of operation;

(3) execute contracts and other instruments necessary or convenient to the exercise of its powers under this chapter;

(4) provide, arrange, or contract for the furnishing or repair by any person of services, privileges, works, streets, roads, public utilities, or other facilities in connection with an urban renewal project, including installation, construction, and reconstruction of streets, utilities, parks, playgrounds, and other public improvements necessary to carry out an urban renewal project;

(5) acquire any real property, including improvements, and any personal property necessary for administrative purposes, that is necessary or incidental to an urban renewal project, hold, improve, clear, or prepare the property for redevelopment, mortgage or otherwise encumber or dispose of the real property, insure or provide for the insurance of real or personal property or municipal operations against any risk or hazard and to pay premiums on that insurance, and enter any necessary contracts;

(6) invest urban renewal project funds held in reserves or sinking funds, or not required for immediate disbursement, in property or securities in which banks may legally invest funds subject to their control, redeem bonds issued under Section 374.026 at the redemption price established in the bond, or purchase those bonds at less than the redemption price, and cancel the bonds redeemed or purchased;

(7) borrow money and apply for and accept advances, loans, grants, contributions, and other forms of financial assistance from the federal, state, or county government, other public body, or other public or private sources for the purposes of this chapter, give any required security, and make and carry out any contracts in connection with the financial assistance;

(8) make plans necessary to carry out this chapter in its area of operation, contract with any person in making and carrying out the plans, and adopt, approve, modify or amend the plans;

(9) develop, test, and report methods and techniques for the prevention of slums and urban blight, conduct demonstrations and other activities in connection with those methods and techniques, and apply for, accept, and use federal grants made for those purposes;

(10) prepare plans and provide reasonable assistance for the relocation of persons displaced from an urban renewal project area, including families, business concerns, and others, as necessary to acquire possession and to clear the area in order to conduct the urban renewal project;

(11) appropriate funds and make expenditures as necessary to implement this chapter and, subject to Subsection (c), levy taxes and assessments for that purpose;

(12) close, vacate, plan, or replan streets, roads, sidewalks, ways, or other places, plan, replan, zone, or rezone any part of the municipality and make exceptions from building regulations, and enter agreements with an urban renewal agency vested with urban renewal powers under Subchapter C, which may extend over any period, restricting action to be taken by the municipality under any of the powers granted under this chapter;

(13) organize, coordinate, and direct the administration of this chapter within the area of operation as those provisions apply to the municipality to most effectively promote and achieve the purposes of this chapter and establish new municipal offices or reorganize existing offices as necessary to most effectively implement those purposes; and

(14) issue tax increment bonds.

(b) A municipality may include in a contract made with the federal government for financial assistance for an urban renewal project the provisions and conditions imposed by federal law that the municipality considers reasonable, appropriate, and consistent with the purposes of this chapter.

(c) A municipality may not levy a tax or assessment under or for the purposes of this chapter until the proposed levy is submitted to the municipality's voters in an election on the question and a majority of those voting approve the levy.

(d) Except as provided by Section 374.016, a municipality may acquire by condemnation any interest in real property, including a fee simple interest, that the municipality considers necessary for or in connection with an urban renewal project. Property dedicated to a public use may be acquired in that manner, except that property belonging to the state or to a political subdivision of the state may not be acquired without the consent of the state or political subdivision.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.016. SLUM CLEARANCE. (a) In this section, "slum clearance and redevelopment section" means any substantial contiguous part of an urban renewal area that a municipality proposes to acquire and clear of all buildings, structures, and other improvements for redevelopment and reuse in accordance with the urban renewal plan.

(b) If an urban renewal project includes a slum clearance and redevelopment section that the municipality proposes to use for other than public use, the municipality may not use condemnation to acquire that property unless the municipality determines by resolution that the rehabilitation of that property without clearance would be impractical and ineffective. That determination must be based on a finding that at least 50 percent of the structures in the section are dilapidated beyond the point of feasible rehabilitation or are otherwise unfit for rehabilitation, and that there exist other blighting characteristics, such as overcrowding of structures on the land, mixed uses of structures, deficient streets, or deficiencies in public utilities or recreational and community facilities. A municipality may exercise eminent domain authority as provided by Chapter 21, Property Code.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.017. DISPOSITION OF PROPERTY. (a) Subject to the covenants, conditions, and restrictions, including covenants running with the land, that the municipality considers to be in the public interest or necessary to implement this chapter and that are written into the instrument transferring or conveying title, and after the governing body of the municipality approves the urban renewal plan, the municipality may:

(1) sell, lease, or otherwise transfer real property or an interest in real property in an urban renewal area for residential, recreational, commercial, industrial, or other uses, including a public use, and enter contracts relating to the transfer; or

(2) retain the property or interest for public use in accordance with the urban renewal plan.

(b) The original owner from whom property was acquired under

this chapter by condemnation or through threat of condemnation has the first right to repurchase the property at the price at which it is offered.

(c) The purchaser or lessee of property transferred under this section, and a successor in interest to such a person, including an assignee, must devote the property to the uses specified in the urban renewal plan and may be obligated to comply with conditions specified in the deed of conveyance, including the requirement to begin any improvements required by the urban renewal plan within a reasonable time.

(d) Real property or an interest in real property subject to this section may only be sold, leased, or otherwise transferred or retained at not less than the fair value of the property for uses in accordance with the urban renewal plan. In determining the fair value, the municipality shall consider:

- (1) the uses provided in the urban renewal plan;
- (2) any restrictions on and any covenants, conditions, and obligations assumed by the purchaser, lessee, or municipality in retaining the property;
- (3) the objectives of the plan for the prevention of the recurrence of slums or blighted areas; and
- (4) any other matters that the municipality specifies as appropriate.

(e) The municipality or urban renewal agency may provide in an instrument of conveyance to a private purchaser or lessee that the purchaser or lessee may sell any or all of the unimproved property without profit to the seller. After improving a parcel of real property in accordance with the development plan adopted for the area, the purchaser may sell the parcel before completion of the development of the area or tract purchased, but the sale does not relieve that purchaser from the obligation of completing the development of that area or tract. The purchaser may sell a parcel of land purchased for redevelopment to another person who is obligated to improve the parcel as provided by the development plan for that project if the resale is without profit to the seller and if any subsequent purchaser is required to improve the property as provided by the urban renewal plan and by the conditions contained in the deed of conveyance.

(f) A municipality shall sell real property acquired by the municipality that is to be sold to private developers in accordance

with the urban renewal plan as rapidly as is feasible in the public interest and consistent with the goals of the urban renewal plan. An instrument executed by a municipality or by an urban renewal agency that purports to convey any right, title, or interest in any property under this chapter is presumed to be executed in compliance with this chapter with respect to the title or interest of any bona fide lessee, transferee, or purchaser of the property.

(g) A municipality that sells real property in an urban renewal area to a private person must conduct the sale through competitive sealed bids after advertising the offer in the official publication or a newspaper of general circulation. The advertisement must be published once before the 15th day before the date of the sale and must invite bids for the purchase of real property in the urban renewal area either in whole or in parcels as determined by the municipality. Before advertising for bids, the municipality shall adopt as part of the specifications in the general plan of improvement any conditions binding on the purchaser or the purchaser's successors in title, including heirs and assignees. The municipality or urban renewal agency may accept the highest and best responsible bid. The purchase price must be paid in cash. If the municipality or agency determines that the bids received are not satisfactory, it may reject all the bids and readvertise the offer. The urban renewal agency may not sell the property until the price and conditions of sale are approved by the governing body of the municipality. The municipality shall sell any real property acquired in connection with an urban renewal and rehabilitation project within a reasonable time for the purposes applicable to each project, except for the property retained by the municipality for public use. Property to be resold shall be sold within a reasonable time, taking into account the general economic situation at the time of sale.

(h) The municipality may temporarily lease any real property acquired in an urban renewal area, except property that is not fit for human habitation or that is declared substandard by any governmental agency. The lease must provide for a right of cancellation that permits the municipality to sell or dispose of the property for the purposes of this chapter.

(i) The former owner of any real property that is acquired under this chapter and that is not dedicated within a reasonable time to the purposes applicable to the urban renewal project for which it was acquired is entitled, after notice, to repurchase the property at

the price for which it was acquired, less any actual damages sustained by the former owner because of the taking of the property, unless the property is devoted to the urban renewal purposes within 60 days after the date the former owner gives the record owner and the municipality written notice of the intention to exercise the right of repurchase. After a repurchase, any buildings placed on or allowed to remain on the property must conform to the pattern and intent of the urban renewal project if the project is completed.

(j) Any purchaser or lessee who is a private developer of any part of the real property acquired under this chapter may use that property as security to finance the development of the property. The purchaser or lessee may execute and deliver to a lender notes, deeds of trust with powers of sale, mortgages, and other instruments required in connection with obtaining and securing the repayment of the loan. The purchaser or lessee has all the rights, titles, and incidents of ownership available to a purchaser or lessee of land generally, and the person is entitled to mortgage and encumber the property for either the purchase price or for improvements in accordance with the objectives of this chapter. Any subsequent owner or lessee who acquires title through foreclosure of a lien given to secure the indebtedness or through a conveyance or assignment in satisfaction of debt takes title subject only to the restrictive covenants related to the use and improvement of the land that are contained in the original conveyance from the municipality. The owner's or lessee's interest is not subject to any condition precedent or condition subsequent that would result in reverter or forfeiture of title or to any restraint as to the amount for which the property may be resold or leased.

(k) Notwithstanding any other provision of this chapter or of any other law relating to competitive bid requirements, a municipality or urban renewal agency may sell urban renewal land for uses in accordance with an urban renewal plan to a public or private nonprofit corporation or foundation. The sale must be for at least the fair market value of the land as determined by the municipality or urban renewal agency.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

SUBCHAPTER C. URBAN RENEWAL AGENCY

Sec. 374.021. EXERCISE OF URBAN RENEWAL PROJECT POWERS. (a) A municipality may exercise urban renewal project powers through a board or through municipal officers selected by the governing body of the municipality by resolution. The municipality may exercise those powers through an urban renewal agency created under this subchapter if the governing body by resolution determines that the creation of an urban renewal agency is in the public interest. An urban renewal agency created under this subchapter may exercise all the urban renewal project powers of the municipality.

(b) In this section, "urban renewal project powers" includes the rights, powers, functions, and duties of a municipality under this chapter. The term does not include the power to:

- (1) determine an area as a slum area, blighted area, or both and to designate that area as appropriate for an urban renewal project;
- (2) approve and amend urban renewal plans and hold public hearings relating to those plans;
- (3) establish a general plan for the locality as a whole;
- (4) establish a workable program under Section 374.013;
- (5) make determinations and findings under Section 374.011(a), 374.013(b), or 374.014(d);
- (6) issue general obligation bonds; and
- (7) appropriate funds, levy taxes and assessments, and exercise other functions under Subdivisions (11) and (12) of Section 374.015(a).

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.022. CREATION OF URBAN RENEWAL AGENCY. (a) An urban renewal agency created in a municipality is a public body corporate and politic.

(b) An urban renewal agency may not transact business or exercise any powers under this chapter until the governing body of the municipality:

- (1) adopts a resolution as provided by Section 374.011;
and
- (2) elects to exercise urban renewal project power through an urban renewal agency as provided by Section 374.021(a).

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.023. BOARD OF COMMISSIONERS. (a) If an urban renewal agency is created by a municipality, the mayor of the municipality, with the advice and consent of the governing body of the municipality, shall appoint a board of commissioners for the urban renewal agency.

(b) The board must be composed of at least five but not more than nine members. A member serves a two-year term. The commissioners shall designate one member to serve as chairman and one to serve as vice-chairman for one-year terms. A member of the board must be a resident of the municipality and a real property owner. The number of commissioners shall be determined by the governing body at the time of the appointment of the commissioners and may not be changed more than once every two years. At the time of the initial appointments, a simple majority of the commissioners shall be designated to serve for a one-year term and the remaining members for two-year terms. If a vacancy occurs, the governing body shall fill the vacancy for the unexpired term in the same manner as the initial appointment.

(c) A commissioner serves without compensation but is entitled to necessary expenses incurred in the performance of official duties, including travel expenses.

(d) A certificate of appointment, which is conclusive evidence of the proper appointment of each commissioner, must be filed with the clerk of the municipality.

(e) If the board is composed of five, seven, or nine members, any action by the board, to be valid, must be adopted or rejected by a majority of the total number of the commissioners.

(f) The governing body may remove a commissioner for inefficiency, neglect of duty, or misconduct in office after notice of the charges and a hearing. The commissioner must receive a copy of the charges before the 10th day before the date of the hearing and must have the opportunity to be heard either in person or by counsel.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.024. AGENCY PERSONNEL; REPORT. (a) An urban renewal agency may employ an executive director, technical experts, and other

agents and employees as it determines necessary, and may determine the qualifications, duties, and compensation of those personnel. An agency may employ or retain its own counsel and legal staff to perform required legal services.

(b) On or before March 31 of each year, an urban renewal agency shall file with the municipality a report of its activities for the preceding calendar year. If requested by the governing body of the municipality, the agency shall file a quarterly report. The report must include a complete financial statement by the agency that shows its assets, liabilities, income, and operating expenses as of the end of the reporting period.

(c) At the time the report is filed, the agency shall publish notice of the filing in a newspaper of general circulation in the municipality. The notice must state that the report is available for inspection during business hours in the office of the urban renewal agency and in the office of the municipal secretary.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.025. APPROVAL REQUIREMENT. An urban renewal agency created under this subchapter may not undertake a renewal or rehabilitation project until the area proposed as a renewal or rehabilitation area and the plan of improvement for the project area are approved by the governing body of the municipality.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.026. URBAN RENEWAL BONDS. (a) An urban renewal agency created under this subchapter may issue bonds from time to time to finance an urban renewal project, including the payment of principal and interest on any advances for surveys and plans. The agency may also issue refunding bonds for the payment or retirement of bonds previously issued.

(b) Bonds issued under this section must be made payable, both as to principal and interest, only from the income, proceeds, revenues, and funds of the urban renewal agency that are derived from or held in connection with the conduct of urban renewal projects. Payment of the principal and interest of the bonds may be further secured by a pledge of any loan, grant, or contribution from the

federal government, or from any other source, in aid of an urban renewal project, or by a mortgage of such a project if title is held by the urban renewal agency.

(c) A bond issued under this section is not an indebtedness of the state or of a political subdivision of the state other than the issuing urban renewal agency and is not subject to any other law relating to the authorization, issuance, or sale of bonds.

(d) A bond issued under this section is issued for an essential public and governmental purpose and is, with the interest on the bond and the income from it, exempt from taxes.

(e) A bond issued under this section must be authorized by a resolution or ordinance of the governing body of the urban renewal agency and may be issued in one or more series. The bond must bear the date, be payable on demand or mature at a time or times, bear interest at a rate, be in a denomination or denominations, be in either coupon or registered form, carry conversion or registration privileges, have a rank or priority, have a manner of execution, be payable in a medium of payment and at a place or places of payment, be subject to terms of redemption, with or without premium, be secured in a manner, and have any other characteristics, as provided by the resolution, trust indenture, or mortgage issued in relation to the bond.

(f) A bond issued under this section may be sold at not less than par at a public sale held after notice is published in a newspaper of general circulation in the area of operation and in any other medium of publication determined by the urban renewal agency and may also be exchanged for other bonds on a par basis. A bond issued under this section is fully negotiable.

(g) A bond issued under this section may be sold to the federal government at not less than par at a private sale. If less than all of the authorized principal amount of the bonds is sold to the federal government, the balance may be sold at a private sale at not less than par at an interest cost to the urban renewal agency that does not exceed the interest cost to the agency of the part of the bonds sold to the federal government.

(h) If the officials whose signatures appear on bonds or coupons issued under this section cease to be officials of the urban renewal agency before the delivery of the bonds, their signatures are valid for all purposes as if they had remained in office until delivery.

(i) In an action involving the validity or enforceability of a bond issued under this subchapter or the security for such a bond, a bond that recites in substance that it was issued by an urban renewal agency in connection with an urban renewal project is conclusively considered to have been issued for those purposes, and the project is conclusively considered to have been conducted in accordance with this chapter.

(j) A bank, trust company, banker, savings bank and institution, savings and loan association, investment company, and other person conducting a banking or investment business, an insurance company, insurance association, and other person conducting an insurance business, and an executor, administrator, curator, trustee, and other fiduciary may invest a sinking fund, money, or other fund belonging to it or in its control in any bonds or obligations issued by an urban renewal agency under this section. Those bonds or other obligations must be secured by an agreement between the issuer and the federal government in which the issuer agrees to borrow from the federal government and the federal government agrees to lend to the issuer, before the maturity of the bonds or other obligations, money in an amount that, together with any other money irrevocably committed to the payment of interest on the bonds or other obligations, is sufficient to pay the principal of the bonds or other obligations with interest to maturity. Under the terms of the agreement the money must be used to pay the principal of and interest on the bonds or other obligations at maturity. Those bonds and other obligations are authorized security for a public deposit. Any person may use funds owned or controlled by the person to purchase those bonds or obligations. This subsection does not relieve a person of a duty to exercise reasonable care in selecting securities.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

SUBCHAPTER D. TAX INCREMENT FINANCING FOR URBAN RENEWAL PROJECTS

Sec. 374.031. ELECTION REQUIRED. (a) A municipality may not use the tax increment method of financing prescribed under this subchapter unless a majority of the qualified voters of the municipality voting on the question approve that method of financing in an election held by the municipality.

(b) The ballot shall be printed to provide for voting for or against the proposition: "Use of tax increment financing for urban renewal purposes."

(c) The election may be held in conjunction with an election held under Section 374.011 or 374.012.

(d) This referendum is not required if the constitutional amendment on tax increment financing is approved by the voters.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.032. TAX INCREMENT FUND. On approval of an urban renewal plan by the governing body of a municipality and on approval of tax increment financing as required by Section 374.031, the governing body by resolution shall establish a fund known as the tax increment fund.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.033. COMPUTATION OF TAX INCREMENTS. (a) A tax increment is computed by multiplying the total in property taxes levied and collected by the municipality and all other taxing entities on the taxable real property in an urban renewal project area in a year by a fraction, the numerator of which is equal to that year's market value of all taxable real property in the area minus the tax increment base and the denominator of which is equal to that year's market value of all taxable real property in the area.

(b) For the purposes of this chapter, only the tax assessor-collector determines the market value of property located in an urban renewal project area during the time that the project exists. The determination requires the concurrence of the comptroller. A property owner who is aggrieved by a determination of the tax assessor-collector has the same right of appeal as that provided by law to owners of property not affected by this chapter.

(c) At the time an urban renewal project is designated by the governing body, the tax assessor-collector shall, with the concurrence of the comptroller, certify to the governing body the market value of property within the boundaries of the urban renewal district. The tax assessor-collector shall include at its most recently determined market value any property that is taxable at the

time that the urban renewal project is designated and shall include at zero any property that is exempt from taxation at the time that the district is designated.

(d) The tax assessor-collector shall annually certify to the governing body the amount of the captured market value of property within the boundaries of the district and the amount of tax increments produced from that captured market value. The tax assessor-collector shall make the initial certification not later than one year from the date on which an urban renewal project is designated.

(e) For any year in which taxes are to be paid into the tax increment fund established under Section 374.032, a taxing entity may not consider any captured market value with respect to an urban renewal project in computing a debt limitation or for any other purpose except to determine the amount to be paid into the tax increment fund.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.034. ALLOCATION OF TAX COLLECTIONS AND TAX INCREMENTS; TAX INCREMENT FUND. (a) For the purposes of this chapter, the tax assessor-collector has the sole authority and the duty to collect the taxes levied by the municipality and all other taxing entities on property located within an urban renewal project and to allocate taxes and tax increments in the manner required by this chapter.

(b) Beginning with the first payment of taxes levied by the municipality or other taxing entity after the time an urban renewal project is designated, the receipts from those taxes shall be allocated and paid as provided by this subsection. The receipts from the property taxes collected that are produced from the tax increment base shall first be allocated and paid to the municipality or appropriate taxing entity. All tax increments produced from the captured market value of the property located within the urban renewal project district shall then be deposited into the tax increment fund established for the project.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.035. TAX INCREMENT BONDS. (a) A municipality may

issue tax increment bonds, the proceeds of which may be used to pay redevelopment costs relating to the urban renewal project for which the bonds were issued or to satisfy claims of holders of those bonds. On the approval of two-thirds of the qualified voters of the municipality, the municipality may also issue refunding bonds for the payment or retirement of tax increment bonds previously issued by the municipality. The tax increment bonds may be made payable, both as to principal and interest, only from:

- (1) tax increments allocated to and paid into the tax increment fund established by the municipality under Section 374.032;
- (2) private sources;
- (3) contributions or other financial assistance from this state or the United States; or
- (4) a combination of those methods.

(b) A tax increment bond issued under this section, with the interest and income from the bond, is exempt from taxation. The period of maturity of a tax increment bond is limited to a maximum of 20 years from the date of issuance. Bonds issued under this section must be authorized by a resolution or ordinance of the governing body of the municipality and may be issued in one or more series. The bond must have the characteristics prescribed by Section 374.026(e) as provided by the resolution, trust indenture, or mortgage issued in relation to the bond.

(c) A bond issued under this section may be sold at not less than par at a public sale after notice published in a newspaper of general circulation in the municipality and in any other medium of publication determined by the governing body or may be exchanged for other bonds on a par basis. A bond issued under this section is fully negotiable.

(d) In an action or proceeding involving the validity or enforceability of a bond issued under this section or the security for such a bond, a bond that recites in substance that it is issued by the municipality in connection with an urban renewal project is conclusively considered to have been issued for those purposes, and the urban renewal project is conclusively considered to have been planned, located, and carried out in accordance with this chapter.

(e) A bank, trust company, banker, savings bank and institution, savings and loan association, investment company, and other person conducting a banking or investment business, an insurance company, insurance association, and other person conducting

an insurance business, and an executor, administrator, curator, trustee, and other fiduciary may invest a sinking fund, money, or other fund belonging to it or in its control in any tax increment bonds issued by a municipality under this section. The bond is an authorized security for a public deposit. Any person may use funds owned or controlled by the person to purchase those bonds. This subsection does not relieve a person of a duty to exercise reasonable care in selecting securities.

(f) Tax increment bonds may be paid only out of the tax increment fund established under Section 374.032. The governing body of the municipality may irrevocably pledge all or part of the fund to the payment of those bonds or notes. The fund or the designated part of the fund may only be used for the payment of those bonds and interest on those bonds until they have been fully paid. A holder of those bonds or coupons relating to the bonds has a lien against the fund for the payment of the bonds or notes and the interest on them and may protect and enforce that lien by an action at law or in equity.

(g) To increase the security and marketability of tax increment bonds, the municipality, according to its best judgment, may:

(1) create a lien for the benefit of the bondholders on a public improvement or public work financed by the bonds or on the revenue from the public improvement or public work; or

(2) make covenants and take other action as necessary, convenient, or desirable to additionally secure the bonds or make the bonds more marketable.

(h) A tax increment bond issued under this section is not a general obligation of the municipality, is not a charge against its general credit or taxing powers, and is not payable other than as provided by this chapter. The tax increment bond must state those limitations on its face.

(i) A tax increment bond issued under this section may not be included in computing the debt of the issuing municipality.

(j) Tax increment bonds may not be issued in an amount exceeding the aggregate costs of implementing the urban renewal plan for the project for which they were issued.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.036. DISBURSEMENTS FROM TAX INCREMENT FUND. (a) Money may be disbursed from a tax increment fund only to satisfy the claims of holders of tax increment bonds issued in aid of the urban renewal project with respect to which the fund was established or to pay project costs. In this section, "project costs" means any expenditure made or estimated to be made, or monetary obligations incurred or estimated to be incurred, by the municipality that are listed in an urban renewal project, plus any incidental costs, less any income or revenues other than tax increments, received or reasonably expected to be received by the municipality in connection with the implementation of the urban renewal plan. Those project costs include:

(1) capital costs, including:

(A) the actual costs of the construction of public works or improvements, new buildings, structures, and fixtures;

(B) the costs of demolition, alteration, remodeling, repair, or reconstruction of existing buildings, structures, and fixtures;

(C) the costs of acquisition of equipment; and

(D) the costs of clearing and grading of land;

(2) financing costs, including interest paid to holders of tax increment bonds issued to pay for project costs and any premium paid over the principal amount because of the redemption of the obligation before maturity;

(3) professional service costs, including costs incurred for architectural, planning, engineering, or legal services;

(4) imputed administrative costs, including reasonable charges for the time spent by municipal employees in connection with the implementation of an urban renewal plan; and

(5) organizational costs, including the cost of conducting studies and the cost of informing the public with respect to the creation of urban renewal projects and the implementation of project plans.

(b) Subject to any agreement with holders of tax increment bonds, money in a tax increment fund may be temporarily invested in the same manner as other municipal funds.

(c) After project costs and tax increment bonds issued with respect to an urban renewal project have been paid or payment has been arranged, and subject to any agreement with bondholders, any money remaining in a tax increment fund shall be paid over to the

municipality and to other taxing entities levying taxes on property within the project in amounts belonging to each entity.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.037. MUNICIPAL ANNUAL REPORT; STATEMENT. (a) Before July 2 each year, the governing body of the municipality shall submit to the chief executive officer of each taxing entity a report on the status of each urban renewal district. The report must include statements of:

- (1) the amount and source of revenue in the tax increment fund established under Section 374.032;
- (2) the amount and purpose of expenditures from the fund;
- (3) the amount of principal and interest due on any outstanding bonded indebtedness;
- (4) the tax increment base and the current captured market value retained by the urban renewal project; and
- (5) the captured market value shared by the municipality and other taxing entities, the total in received tax increments, and any additional information required to demonstrate compliance with the tax increment financing plan adopted by the governing body.

(b) On or before July 1 each year, the governing body shall publish a statement in a newspaper of general circulation in the municipality showing:

- (1) the tax increment received and expended during the previous year;
- (2) the original market value and captured market value of all property located within the urban renewal project;
- (3) the amount in outstanding indebtedness incurred in aid of the urban renewal project; and
- (4) any additional information the governing body considers necessary.

SUBCHAPTER Z. MISCELLANEOUS PROVISIONS

Sec. 374.901. USE OF ACQUIRED PROPERTY FOR PUBLIC HOUSING. (a) Except as provided by Subsection (b), real property acquired under this chapter may not be sold, leased, granted, conveyed, or otherwise

made available for public housing.

(b) Real property acquired under this chapter may be made available for public housing if the municipality holds an election at which a majority of the qualified voters voting in the election approve that use of the property. The municipality shall conduct the election in the manner provided for an election under Section 374.011. The ballot shall be printed to provide for voting for or against the proposition: "Permitting the use of land acquired by urban renewal for public housing."

(c) If the qualified voters of a municipality have approved the use of land acquired under this chapter for public housing, the municipality may order an election on prohibiting the use of that land for public housing. The municipality shall conduct the election in the manner provided by Subsection (b), except that the ballot shall be printed to provide for voting for or against the proposition: "Prohibiting the use of land acquired by urban renewal for public housing." If a majority of the voters voting in the election favor prohibiting the use of the land for public housing, the prohibition contained in Subsection (a) applies. An election that results in the prohibition of the use of land for public housing does not affect land that has been made available for public housing at the time of the election.

(d) If a municipality holds an election under this section, the municipality may not hold another election under this section for one year.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.902. EXERCISE OF URBAN RENEWAL POWERS BY CERTAIN COUNTIES. (a) Unless the context clearly requires otherwise, a statement in this chapter that applies to a mayor applies to the county judge of a county exercising powers under this section, a statement that applies to the governing body of a municipality applies to the county's commissioners court, and a statement that applies to a municipality applies to the county.

(b) A county with a population of more than 250,000 and located along an international border or a county with a population of more than 1.3 million may exercise the powers provided for municipalities under this chapter with respect to areas of the county that are not

within the corporate boundaries of a municipality. A county with a population of more than 250,000 and located along an international border may exercise the powers provided for municipalities under this chapter with respect to areas of the county located within the corporate boundaries of a municipality, if the municipality approves the county's participation in an urban renewal project through an interlocal agreement under Chapter 791, Government Code. The county may not exercise those powers until the commissioners court of the county adopts a resolution in the manner provided by Section 374.011 for adoption of a resolution by a municipality. The resolution must be approved at an election held in the county in the manner provided for a municipal election under Section 374.011. The adoption of the resolution is not approved unless a majority of the voters who vote on the question in the entire county as well as in each municipality in the county approve the adoption of the resolution. In a municipality that is only partially located in the affected county, only voters who reside in the county may vote.

Sec. 374.903. URBAN RENEWAL IN DISASTER AREA. If the governing body of a municipality certifies that an area needs redevelopment or rehabilitation because of a flood, fire, hurricane, earthquake, storm, or other catastrophe for which the governor has certified the state's need for disaster assistance under applicable federal law, the governing body may approve an urban renewal plan and an urban renewal project for the affected area without regard to Section 374.014(d) and to the provisions of this chapter that require a general plan for the municipality and a public hearing on the urban renewal project.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.904. COSTS OF RELOCATION. If the relocating, raising, rerouting, changing of grade, or altering the construction of a

railroad, electric transmission line, pipeline, or telephone or telegraph property or facility is made necessary by the exercise of powers conferred under this chapter on a municipality, an urban renewal agency, or another public body, the necessary action shall be made at the expense of the public body that made the change necessary.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.905. MUNICIPAL PROPERTY EXEMPT FROM LEVY AND EXECUTION. (a) All municipal property, including funds, owned or held for the municipality for the purposes of this chapter are exempt from levy and sale by execution. An execution or other judicial proceeding may not issue against the property, and a judgment against the municipality may not be a charge or lien on that property. This subsection does not apply to or limit the right of an obligee to pursue any remedies for the enforcement of any pledge or lien given under this chapter by a municipality on its rents, fees, grants, or revenues from urban renewal projects.

(b) If real property in the urban renewal project area is acquired and is owned as part of the project by a municipality or the urban renewal agency, and the project is not subject to ad valorem taxes because of Subsection (a), the gross project cost may include reasonable payments in lieu of taxes.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.906. POWERS OF PUBLIC BODY. (1) dedicate, sell, convey, or lease any of its interest in any urban renewal project or grant easements, licenses, or other rights and privileges in the project to a municipality or urban renewal agency;

(2) incur the entire expense of any public improvements made by the public body in exercising the powers granted under this section;

(3) do anything necessary to aid or cooperate in the planning or implementation of an urban renewal plan;

(4) lend, grant, or contribute funds to a municipality or an urban renewal agency;

(5) enter into agreements that may extend over any period with a municipality, urban renewal agency, or other public body relating to action to be taken by the public body under any of the powers granted under this chapter, including furnishing funds or other assistance in connection with an urban renewal project;

(d) To aid in planning or conducting an urban renewal project through an urban renewal agency under this chapter, a municipality may perform all of the functions that a public body may perform under Subsection (a), including furnishing financial and other assistance.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.908. CONFLICT OF INTEREST. (a) A public official or employee of a municipality, including an official or employee of an urban renewal agency that exercises urban renewal project powers for a municipality under Subchapter C or of any other municipal board or commission, may not voluntarily acquire any direct or indirect interest in an urban renewal project, in any property included or planned to be included in an urban renewal project or plan, or in any contract, or contract proposed, in connection with an urban renewal project.

(b) If the acquisition is not voluntary, the official or employee shall immediately disclose the acquisition of the interest in writing to the governing body of the municipality. The governing body shall enter the disclosure on its minutes. Not later than three months after the date on which the involuntary acquisition occurs, the official or employee shall either resign the position with the municipality or divest the interest.

(c) If the official or employee owns or controls any direct or indirect interest in property that the person knows is included or planned to be included in an urban renewal project, or if the official or employee owned or controlled any such interest at any time during the two-year period preceding the inclusion or planned inclusion of the property in an urban renewal project, the official or employee shall immediately disclose that fact in writing to the governing body of the municipality. The governing body shall enter the disclosure on its minutes. The official or employee may not participate in any action by the municipality or by the urban renewal agency that affects the property.

(d) Any required disclosure made under this section to the governing body of the municipality must also be made at the same time to the urban renewal agency that exercises urban renewal project

powers under Section 374.021. A commissioner or other officer of an urban renewal agency or other board who exercises powers under this chapter may not hold any other public office with the municipality.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 374.909. JUDICIAL PROCEEDINGS. (a) An action brought to review, modify, suspend, or satisfy a rule, order, decision, or other act of the governing body of a municipality or other agency shall be trial de novo as that term is used in an appeal from a justice of the peace court to a county court. In the trial, no presumptions in favor of the order or rule apply, and evidence relating to the validity or reasonableness of the order or rule may not be heard. The determination of the action shall be made on the facts as in other civil cases, and the procedure used and the determination of orders and judgments to be entered in the trial shall be under the rules of law, evidence, and procedure prescribed under the constitution, statutes, and rules of procedure of this state applicable to civil trials.

(b) The trial of an action brought under this section shall be strictly de novo and the decision in the action shall be made on the preponderance of the evidence presented at the trial, independent of any administrative action taken by the board and free from the application of the substantial evidence rule stated by the courts relating to orders of other administrative or quasi-judicial agencies.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

CHAPTER 375. MUNICIPAL MANAGEMENT DISTRICTS IN GENERAL
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 375.001. LEGISLATIVE FINDINGS; PURPOSES. (a) The creation of a municipal management district is declared to be essential to the accomplishment of the purposes of Article III, Section 52, Article XVI, Section 59, and Article III, Section 52-a, of the Texas Constitution and to the accomplishment of the other public purposes stated in this chapter.

(b) The creation of each district is necessary to promote, develop, encourage, and maintain employment, commerce, economic development, and the public welfare in the commercial areas of municipalities and metropolitan areas of this state.

(c) The creation of districts and this chapter may not be interpreted to relieve any municipality from providing services to an area included in the district or to release the municipality from the obligation it has to provide municipal services to that area. A district is created to supplement and not supplant the municipal services of the municipality.

(d) All of the land and other property to be included within the boundaries of a district will be benefited by the works and projects that are to be accomplished and the services to be provided by the district under powers conferred by Article III, Section 52, Article XVI, Section 59, and Article III, Section 52-a, of the Texas Constitution and other powers granted under this chapter.

(e) A district is created to serve a public use and benefit.

(f) The creation of a district is essential to further the public purposes of development and diversification of the economy of the state, the elimination of unemployment and underemployment, and the development or expansion of transportation and commerce and is in the public interest.

(g) A district will promote the health, safety, and general welfare of residents, employers, employees, and consumers in the district and the general public.

(h) A district is designed to provide needed funding for metropolitan areas to preserve, maintain, and enhance the economic health and vitality of the areas as community and business centers.

(i) The present and prospective traffic congestion in municipalities in this state, the need for traffic control and the

safety of pedestrians, and the limited availability of funds require the promotion and development of public transportation and pedestrian facilities and systems by new and alternative means, and a district will serve the public purpose of securing expanded and improved transportation and pedestrian facilities and systems. The public transportation and pedestrian facilities and systems promoted and developed by a district will be attractive, safe, and convenient and will benefit not only the land and property in the district, but also the employees, employers, and consumers of the district and the general public.

(j) A district will further promote the health, safety, welfare, morals, convenience, and enjoyment of the public by landscaping and developing certain areas within the district that are necessary for the restoration, preservation, and enhancement of scenic and aesthetic beauty.

(k) A district will not act as the agent or instrumentality of any private interests even though many private interests will be benefited by the district, as will the general public.

(l) The purpose of this chapter is to promote and benefit commercial development and commercial areas throughout the state. Each improvement project or service authorized by this chapter is found and declared to carry out a public purpose.

Added by Acts 1991, 72nd Leg., ch. 16, Sec. 13.05(a), eff. Aug. 26, 1991.

Sec. 375.002. CONSTRUCTION OF CHAPTER. (a) This chapter shall be liberally construed in conformity with the findings and purposes in Section 375.001.

(b) If any provision of general law is in conflict or inconsistent with this chapter, this chapter prevails. Any general law not in conflict or inconsistent with this chapter is adopted and incorporated by reference.

(c) Unless the municipality increases the amount in its plan, the number of properties acquired by a qualified participating developer under this section on which development has not been completed may not at any given time exceed three times the annual average residential production completed by the qualified participating developer during the preceding two-year period as determined by the municipality.

(d) The deed conveying a property sold by the land bank must include a right of reverter so that if the qualified participating developer does not apply for a construction permit and close on any construction financing within the three-year period following the date of the conveyance of the property from the land bank to the qualified participating developer, the property will revert to the land bank for subsequent resale in accordance with this chapter or conveyance to the taxing units who were parties to the judgment for disposition as otherwise allowed under the law. (1) the market value of the property as specified in the judgment of foreclosure is less than the total amount due under the judgment, including all taxes, penalties, and interest, plus the value of nontax liens held by a taxing unit and awarded by the judgment, court costs, and the cost of the sale;

(c) A sale of property for use in connection with the program is a sale for a public purpose.

(d) If the person being sued in a suit for foreclosure of a tax lien does not contest the market value of the property in the suit, the person waives the right to challenge the amount of the market value determined by the court for purposes of the sale of the property under Section 33.50, Tax Code.

(g) If the officer charged with the sale receives a written request as provided by Subsection (f), the officer shall sell the property as otherwise provided in Section 34.01, Tax Code.

(h) The owner of the property subject to sale may not receive any proceeds of a sale under this chapter. However, the owner does not have any personal liability for a deficiency of the judgment as a result of a sale under this chapter.

(j) The deed of conveyance of the property sold to a land bank under this section conveys to the land bank the right, title, and interest owned by the defendants included in the foreclosure judgment, including the defendants' right to the use and possession of the property, subject only to the defendants' right of redemption, the terms of a recorded restrictive covenant running with the land that was recorded before January 1 of the year in which the tax lien on the property arose, a recorded lien that arose under that restrictive covenant that was not extinguished in the judgment foreclosing the tax lien, and each valid easement of record as of the date of the sale that was recorded before January 1 of the year the tax lien arose.

(d) The deed conveying a property sold by the land bank must include a right of reverter so that if the qualified participating developer does not apply for a construction permit and close on any construction financing within the two-year period following the date of the conveyance of the property from the land bank to the qualified participating developer, the property will revert to the land bank

for subsequent resale to another qualified participating developer or conveyance to the taxing units who were parties to the judgment for disposition as otherwise allowed under the law.

(2) the use of the property to be consistent and compatible with the residential character of the neighborhood and any applicable standards for use adopted by the land bank, if the property is sold to an eligible adjacent property owner.

(c) Housing developed under this chapter may consist of one to four residential units. At least one unit of any structure with two to four units must be owned and occupied as a primary residence by a low income household. The remaining units may be rental units if each tenant household meets the income eligibility requirements of a low income household.

(2) in the case of the death of the adjacent property owner.

(2) has built at least three single-family homes or duplexes or one multifamily residential dwelling of four or more units in compliance with all applicable building codes within the preceding two-year period and within the organization's designated geographical boundaries of operation; and

(3) within the preceding two-year period has built or rehabilitated housing units within a two-mile radius of the property that the land bank is offering for sale.

(b) If all eligible adjacent property owners fail to exercise the right of first refusal under Section 379D.011, the land bank shall offer a property for sale to qualified organizations that are eligible to acquire additional properties from the land bank under Section 379D.009(c). If a qualified organization is not eligible to acquire additional properties under that subsection at the time the property first becomes available for sale, the land bank is not required to hold the property from sale until the organization becomes eligible to purchase the property by the right of second refusal described by this section.

(e) During the period specified for the right of second refusal under Subsection (d), the land bank may not sell the property to a qualified participating developer other than a qualified organization. If all qualified organizations notify the land bank that they are declining to exercise their right of second refusal during the specified period, or if an offer to purchase the property is not received from a qualified organization during that period, the land bank may sell the property to any other qualified participating developer at the same price that the land bank offered the property to the qualified organizations.

(f) In its plan, the municipality shall establish the amount of additional time, if any, that a property may be held in the land bank once an offer has been received and accepted from a qualified organization or other qualified participating developer.

(g) If more than one qualified organization expresses an interest in exercising its right of second refusal, the organization that has designated the most geographically compact area encompassing a portion of the property shall be given priority.

(h) In its plan, the municipality may provide for other rights of second refusal for any other nonprofit corporation exempted from federal income tax under Section 501(c)(3), Internal Revenue Code of 1986, provided that the preeminent right of second refusal is provided to qualified organizations as provided by this section.

(1) the market value of the property as specified in the judgment of foreclosure is less than the total amount due under the judgment, including all taxes, penalties, and interest, plus the value of nontax liens held by a taxing unit and awarded by the judgment, court costs, and the cost of the sale;

(b) A sale of property for use in connection with the program is a sale for a public purpose.

(c) If the person being sued in a suit for foreclosure of a tax lien does not contest the market value of the property in the suit, the person waives the right to challenge the amount of the market value determined by the court for purposes of the sale of the property under Section 33.50, Tax Code.

(d) For any sale of property under this chapter, each person who was a defendant to the judgment, or that person's attorney, shall be given, not later than the 90th day before the date of sale, written notice of the proposed method of sale of the property by the officer charged with the sale of the property. Notice must be given in the manner prescribed by Rule 21a, Texas Rules of Civil Procedure.

(e) After receipt of the notice required by Subsection (d) and before the date of the proposed sale, the owner of the property subject to sale may file with the officer charged with the sale a written request that the property not be sold in the manner provided by this chapter.

(f) If the officer charged with the sale receives a written request as provided by Subsection (e), the officer shall sell the property as otherwise provided in Section 34.01, Tax Code.

(g) The owner of the property subject to sale may not receive any proceeds of a sale under this chapter. However, the owner does not have any personal liability for a deficiency of the judgment as a result of a sale under this chapter.

(b) Within the three-year period following the date of acquisition, the land bank must sell a property to a qualified participating developer for the purpose of construction of affordable housing for sale or rent to low income households. If after three years a qualified participating developer has not purchased the property, the property shall be transferred from the land bank to the taxing units who were parties to the judgment for disposition as otherwise allowed under the law.

(c) Unless the municipality increases the amount in its plan, the number of properties acquired by a qualified participating developer under this section on which development has not been completed may not at any time exceed three times the annual average residential production completed by the qualified participating developer during the preceding two-year period as determined by the municipality.

(d) The deed conveying a property sold by the land bank must include a right of reverter so that, if the qualified participating developer does not apply for a construction permit and close on any construction financing within the two-year period following the date of the conveyance of the property from the land bank to the qualified participating developer, the property will revert to the land bank for subsequent resale to another qualified participating developer or conveyance to the taxing units who were parties to the judgment for disposition as otherwise allowed under the law.

(1) 100 percent of the rental units be occupied by and affordable to households with incomes not greater than 60 percent of area median family income, based on gross household income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development;

(2) 40 percent of the units be occupied by and affordable to households with incomes not greater than 50 percent of area median family income, based on gross household income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development; or

(3) 20 percent of the units be occupied by and affordable to households with incomes not greater than 30 percent of area median family income, based on gross household income, adjusted for household size, for the metropolitan statistical area in which the municipality is located, as determined annually by the United States Department of Housing and Urban Development.

(d) The deed restrictions under Subsection (c) must require the owner to file an annual occupancy report with the municipality on a reporting form provided by the municipality. The deed restrictions must also prohibit any exclusion of an individual or family from admission to the development based solely on the participation of the individual or family in the housing choice voucher program under Section 8, United States Housing Act of 1937 (42 U.S.C. Section 1437f), as amended.

(e) Except as otherwise provided by this section, if the deed restrictions imposed under this section are for a term of years, the deed restrictions shall renew automatically.

(f) The land bank or the governing body of the municipality may modify or add to the deed restrictions imposed under this section. Any modifications or additions made by the governing body of the municipality must be adopted by the municipality as part of its plan and must comply with the restrictions set forth in Subsections (b), (c), and (d).

(f) During the specified period, the land bank may not sell the property to a qualified participating developer other than a qualified organization. If all qualified organizations notify the land bank that they are declining to exercise their right of first refusal during the specified period, or if an offer to purchase the property is not received from a qualified organization during that period, the land bank may sell the property to any other qualified participating developer at the same price that the land bank offered the property to the qualified organizations.

(g) In its plan, the municipality shall establish the amount of additional time, if any, that a property may be held in the land bank once an offer has been received and accepted from a qualified organization or other qualified participating developer.

(i) In its plan, the municipality may provide for other rights of first refusal for any other nonprofit corporation exempted from federal income tax under Section 501(c)(3), Internal Revenue Code of 1986, as amended, provided that the preeminent right of first refusal is provided to qualified organizations as provided by this section.

(b) A district may continue to impose a tax in an area that the municipality annexes for limited purposes and in which the municipality does not impose taxes. (c) The legislature intends that the level of taxation of areas where the district and the municipality overlap do not exceed the level of taxation of fully annexed areas.

SUBCHAPTER F. SALES AND USE TAX

Sec. 383.101. SALES AND USE TAX. (a) A district may impose a sales and use tax for the benefit of the district if authorized by a majority of the qualified voters of the district voting at an election called for that purpose. The sales and use tax, if adopted, does not count toward the limitation imposed by Chapter 323, Tax Code, on any sales and use tax that has been levied by the county.

(b) If a district adopts the tax, there is imposed a tax on the receipts from the sale at retail of taxable items in the district at a rate of up to one-half of one percent. There is also imposed an excise tax on the use, storage, or other consumption in the district of taxable items purchased, leased, or rented from a retailer during the period that the tax is effective in the district. The rate of the excise tax is the same as the rate of the sales tax portion of the tax applied to the sales price of the taxable items and is included in the sales tax.

(c) For purposes of this section, "taxable items" includes all items subject to any sales and use tax that is imposed by the county if the county has imposed a sales and use tax.

Sec. 383.102. IMPOSITION, COMPUTATION, ADMINISTRATION, AND GOVERNANCE OF TAX. (a) Chapter 323, Tax Code, to the extent not inconsistent with this chapter, governs the imposition, computation, administration, and governance of the tax under this subchapter, except that Sections 323.101(b) and (e), Tax Code, and Sections 323.209, 323.401 through 323.406, and 323.505, Tax Code, do not apply.

(b) Chapter 323, Tax Code, does not apply to the use and allocation of revenues under this chapter.

(c) In applying the procedures under Chapter 323, Tax Code, the district's name shall be substituted for "the county" and "board of directors" is substituted for "commissioners court."

Added by Acts 1995, 74th Leg., ch. 995, Sec. 5, eff. Sept. 1, 1995. Renumbered from Tax Code Sec. 312.637(c) and amended by Acts 1997, 75th Leg., ch. 165, Sec. 23.05, eff. Sept. 1, 1997.

(b) At the election, the ballots shall be printed to permit voting for or against the proposition: "The increase (decrease) in the local sales and use tax rate of (name of district) to (percentage) to be used for the promotion and development of tourism" or "The abolition of the district sales and use tax used for the promotion and development of tourism." The increase or decrease in the tax rate is effective if it is approved by a majority of the

votes cast. In calling and holding the election, the board shall use the procedure for the confirmation and tax election set forth in this chapter.

(c) The district's sales and use tax is automatically discontinued by operation of law if no tax revenue is collected within the district before the first anniversary of the date the tax took effect. The comptroller shall notify the board and the commissioners court of the county in which the district is located of the discontinuance of the tax. The district may authorize a new sales and use tax by following the procedures provided by this subchapter for imposition of the tax.

Sec. 383.106. LIMITATION ON ADOPTION OF TAX. (a) A district may adopt a tax under this subchapter only if as a result of adoption of the tax the combined rate of all local sales and use taxes imposed by political subdivisions having territory in the district will not exceed two percent.

(b) If, as a result of the imposition or increase in a sales and use tax by a municipality in which there is located a district with an existing sales and use tax or as a result of the annexation by a municipality of the territory in a district with an existing sales and use tax, the overlapping local sales and use taxes in the area in the district will exceed two percent, the district's sales and use tax rate is automatically reduced to a rate that when added

to the combined rate of local sales and use taxes will equal two percent.

(c) If a district's tax rate is reduced in accordance with Subsection (b), the municipality shall make payments to the district equal to the amounts that would have been collected by the district had the municipality not imposed or increased its sales and use tax or annexed the area in the district, less amounts that the district collects following the municipality's levy of or increase in its sales and use tax or annexation of the area in the district. The payment shall be made by the municipality to the district within 10 days after the date of receipt of the money from the comptroller's office and shall continue only for so long as any bonds of the district are outstanding.

CHAPTER 387. COUNTY ASSISTANCE DISTRICT

Sec. 387.001. DEFINITION. In this chapter, "district" means a county assistance district created under this chapter.

Added by Acts 1999, 76th Leg., ch. 1283, Sec. 1, eff. June 18, 1999.
Renumbered from Local Government Code Sec. 384.001 by Acts 2003, 78th Leg., ch. 1275, Sec. 2(110), eff. Sept. 1, 2003.

Sec. 387.003. CREATION AND FUNCTIONS OF DISTRICT. (a) The commissioners court of the county may call an election on the question of creating a county assistance district under this chapter. More than one county assistance district may be created in a county. A district may consist of noncontiguous tracts.

(a-1) A district may perform the following functions in the district:

(1) the construction, maintenance, or improvement of roads or highways;

(2) the provision of law enforcement and detention services;

(3) the maintenance or improvement of libraries, museums, parks, or other recreational facilities;

(4) the provision of services that benefit the public health or welfare, including the provision of firefighting and fire prevention services; or

(5) the promotion of economic development and tourism.

(b) The order calling the election must:

(1) define the boundaries of the district to include any portion of the county in which the combined tax rate of all local sales and use taxes imposed, including the rate to be imposed by the district if approved at the election, would not exceed the maximum combined rate of sales and use taxes imposed by political

subdivisions of this state that is prescribed by Sections 321.101 and 323.101, Tax Code; and

(2) call for the election to be held within those boundaries.

(b-1) If the proposed district includes any territory of a municipality, the commissioners court shall send notice by certified mail to the governing body of the municipality of the commissioners court's intent to create the district. If the municipality has created a development corporation under Chapter 504 or 505, the commissioners court shall also send the notice to the board of directors of the corporation. The commissioners court must send the notice not later than the 60th day before the date the commissioners court orders the election. The governing body of the municipality may exclude the territory of the municipality from the proposed district by sending notice by certified mail to the commissioners court of the governing body's desire to exclude the municipal territory from the district. The governing body must send the notice not later than the 45th day after the date the governing body receives notice from the commissioners court under this subsection. The territory of a municipality that is excluded under this subsection may subsequently be included in:

(1) the district in an election held under Subsection (f) with the consent of the municipality; or

(2) another district after complying with the requirements of this subsection and after an election under Subsection (f).

(c) The ballot at the election must be printed to permit voting for or against the proposition: "Authorizing the creation of the ____ County Assistance District No. ____ (insert name of district) and the imposition of a sales and use tax at the rate of ____ percent (insert appropriate rate) for the purpose of financing the operations of the district."

(d) The district is created if a majority of the votes received at the election favor the creation of the district.

Text of subsection as amended by Acts 2011, 82nd Leg., R.S., Ch. 396 (S.B. 520), Sec. 1

(e) If a majority of the votes received at the election are against the creation of the district, the district is not created. The failure to approve the creation of a district under this subsection does not affect the authority of the county to call one or more elections on the question of creating one or more county

assistance districts.

Text of subsection as amended by Acts 2011, 82nd Leg., R.S., Ch. 1341
(S.B. 1233), Sec. 21

(e) If a majority of the votes received at the election are against the creation of the district, the district is not created and the county at any time may call one or more elections on the question of creating one or more county assistance districts.

(f) The commissioners court may call an election to be held in an area of the county that is not located in a district created under this section to determine whether the area should be included in the district and whether the district's sales and use tax should be imposed in the area. An election may not be held in an area in which the combined tax rate of all local sales and use taxes imposed, including the rate to be imposed by the district if approved at the election, would exceed the maximum combined rate of sales and use taxes imposed by political subdivisions of this state that is prescribed by Sections 321.101 and 323.101, Tax Code.

(g) The area in which an election is held under Subsection (f) is included in the district and the sales and use tax is imposed if a majority of the votes received at the election favor inclusion in the district and imposition of the sales and use tax.

(h) If more than one election to authorize a local sales and use tax is held on the same day in the area of a proposed district or an area proposed to be added to a district and if the resulting approval by the voters would cause the imposition of a local sales and use tax in any area to exceed the maximum combined rate of sales and use taxes of political subdivisions of this state that is prescribed by Sections 321.101 and 323.101, Tax Code, only a tax authorized at an election under this section may be imposed.

(i) In addition to the authority to include an area in a district under Subsection (f), the governing body of a district by order may include an area in the district on receipt of a petition or petitions signed by the owner or owners of the majority of the land in the area to be included in the district. If there are no registered voters in the area to be included in the district, no election is required.

(j) The commissioners court by order may exclude an area from the district if the district has no outstanding bonds payable wholly or partly from sales and use taxes and the exclusion does not impair any outstanding district debt or contractual obligation.

(k) A district annexing territory under this section may annex territory that is not adjacent or contiguous to the district.

(1) the road, public right-of-way, or county-owned property is located in a municipality located in the county that created the district; and

Sec. 392.003. LEGISLATIVE FINDINGS. The legislature finds that:

(1) there is a shortage of safe or sanitary housing at rents that persons of low income can afford that forces persons of

low income to live in unsanitary or unsafe housing and in overcrowded and congested housing;

(2) these housing conditions are responsible for an increase in and spread of disease and crime, are a menace to the health, safety, morals, and welfare of the residents of the state, impair economic values, and necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities;

(3) the unsafe and unsanitary housing cannot be cleared and the shortage of safe and sanitary housing for persons of low income cannot be relieved by private enterprise;

(4) the construction of housing projects for persons of low income would not be competitive with private enterprise;

(5) the clearance, replanning, and reconstruction of the areas in which unsanitary or unsafe housing exists and the providing of safe and sanitary housing for persons of low income are public uses and purposes and governmental functions of state concern for which public money may be spent and private property acquired;

(6) it is in the public interest that work on low income housing projects commence as soon as possible to relieve the unemployment emergency; and

(7) this chapter is necessary in the public interest.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 392.004. OPERATION NOT FOR PROFIT. It is the policy of the state that a housing authority manage and operate its housing projects in an efficient manner to enable it to set rentals at the lowest possible rates consistent with providing decent, safe, and sanitary housing and that a housing authority may not construct or operate a project for profit or as a source of revenue to a municipality or county. For this purpose, an authority shall set rentals at a rate not higher than the rate necessary, together with other available money, revenue, income, and receipts, to produce revenue that is sufficient to:

(1) pay the principal and interest as it becomes due on bonds of the authority;

(2) meet the cost of and provide for maintaining and

operating the projects, including insurance;

(3) pay the administrative expenses of the authority;

(4) create, to the extent determined necessary and advisable by the authority, a reserve for the bonds and to maintain the reserve; and

(5) create, to the extent determined necessary and advisable by the authority, a capital and improvements fund to be used by the authority to accomplish the public purposes of this chapter.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1989, 71st Leg., ch. 677, Sec. 8, eff. Aug. 28, 1989.

Sec. 392.005. TAX EXEMPTION. (a) The property of an authority is public property used for essential public and governmental purposes. The authority and the authority's property are exempt from all taxes and special assessments of a municipality, a county, another political subdivision, or the state.

(b) If a municipality, county, or political subdivision furnishes improvements, services, or facilities for a housing project, an authority may, in lieu of paying taxes or special assessments, agree to reimburse in payments to the municipality, county, or political subdivision an amount not greater than the estimated cost to the municipality, county, or political subdivision for the improvements, services, or facilities.

(c) An exemption under this section for a multifamily residential development which is owned by (i) a public facility corporation created by a housing authority under Chapter 303, (ii) a housing development corporation, or (iii) a similar entity created by a housing authority and which does not have at least 20 percent of its units reserved for public housing units, applies only if:

(1) the authority holds a public hearing, at a regular meeting of the authority's governing body, to approve the development; and

(2) at least 50 percent of the units in the multifamily residential development are reserved for occupancy by individuals and families earning less than 80 percent of the area median family income.

(d) For the purposes of Subsection (c), a "public housing unit"

is a dwelling unit for which the owner receives a public housing operating subsidy. It does not include a unit for which payments are made to the landlord under the federal Section 8 Housing Choice Voucher Program.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 2001, 77th Leg., ch. 1493, Sec. 2, eff. Aug. 31, 2002.

Sec. 392.006. UNIT OF GOVERNMENT; GOVERNMENTAL FUNCTIONS. For all purposes, including the application of the Texas Tort Claims Act (Chapter 101, Civil Practice and Remedies Code), a housing authority is a unit of government and the functions of a housing authority are essential governmental functions and not proprietary functions. Provided, however, a housing authority shall be subject to all landlord obligations and tenant remedies, other than a suit for personal injuries, as set forth in any lease or rental agreement and in Chapters 24, 54, 91, 92, and 301 of the Property Code.

SUBCHAPTER B. CREATION AND AREA OF OPERATION OF A HOUSING AUTHORITY

Sec. 392.011. CREATION OF A MUNICIPAL HOUSING AUTHORITY. (a) A housing authority is created in each municipality in the state.

(b) A municipal housing authority is a public body corporate and politic.

(c) A municipal housing authority may not transact business or exercise its powers until the governing body of the municipality declares by resolution that there is a need for the authority.

(d) The governing body of a municipality may determine on its own motion if there is a need for an authority.

(e) The governing body of a municipality shall determine if there is a need for an authority on the filing of a petition signed by at least 100 qualified voters of the municipality.

(f) The governing body of a municipality shall adopt a resolution declaring that there is a need for a housing authority if it finds that there is:

(1) unsanitary or unsafe inhabited housing in the municipality; or

(2) a shortage of safe or sanitary housing in the municipality available to persons of low income at rentals that they can afford.

(g) In determining whether housing is unsafe or unsanitary, the governing body may consider the degree of overcrowding, the percentage of land coverage, the availability to inhabitants of light, air, space, and access, the size and arrangement of rooms, the sanitary facilities, and the extent to which conditions in the housing subject life or property to the danger of fire or other hazard.

(h) In a proceeding involving the validity or enforcement of, or relating to, a contract of the authority, proof of the adoption of a resolution by the governing body that declares that there is a need for the authority and makes the finding that either or both of the requirements of Subsection (f) exist is conclusive evidence of the establishment of the authority and of its authority to transact business and exercise its powers under this chapter. A copy of the resolution that is certified by the clerk of the municipality is admissible in evidence in the proceeding.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 392.012. CREATION OF A COUNTY HOUSING AUTHORITY. (a) A housing authority is created in each county in the state.

(b) A county housing authority is a public body corporate and politic.

(c) A county housing authority may not transact business or exercise its powers until the commissioners court of the county declares by resolution that there is a need for the authority.

(d) The commissioners court of a county may determine on its own motion if there is a need for an authority.

(e) The commissioners court of a county shall determine if there is a need for an authority on the filing of a petition signed by at least 100 qualified voters of the county.

(f) The commissioners court of a county shall adopt a resolution declaring that there is a need for a housing authority if it finds that there is:

(1) unsanitary or unsafe inhabited housing in the county;
or

(2) a shortage of safe or sanitary housing in the county available to persons of low income at rentals that they can afford.

(g) In determining whether housing is unsafe or unsanitary, the commissioners court may consider the degree of overcrowding, the percentage of land coverage, the availability to inhabitants of light, air, space, and access, the size and arrangement of rooms, the sanitary facilities, and the extent to which conditions in the housing subject life or property to the danger of fire or other hazard.

(h) In a proceeding involving the validity or enforcement of, or relating to, a contract of the authority, proof of the adoption of a resolution by the commissioners court that declares that there is a need for the authority and makes the finding that either or both of the requirements of Subsection (f) exist is conclusive evidence of the establishment of the authority and of its authority to transact business and exercise its powers under this chapter. A copy of the resolution that is certified by the county clerk is admissible in evidence in the proceeding.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 392.013. CREATION OF A REGIONAL HOUSING AUTHORITY. (a) If the commissioners courts of two or more contiguous counties declare by resolution that there is a need for a housing authority to exercise the powers of a regional housing authority under this chapter in the counties, a regional housing authority is created for the counties.

(b) A regional housing authority is a public body corporate and politic.

(c) A commissioners court shall adopt a resolution declaring that there is a need for a regional housing authority only if the commissioners court finds that:

(1) there is unsanitary or unsafe inhabited housing in the county or a shortage of safe or sanitary housing in the county available to persons of low income at rentals that they can afford;
and

(2) a regional housing authority would be a more efficient

or economical administrative unit than a county housing authority to carry out the purposes of this chapter for the county.

(d) In determining whether housing is unsafe or unsanitary, the commissioners court shall consider the safety and sanitation of the housing, the availability to inhabitants of light and air space, the degree of overcrowding, the size and arrangement of rooms, and the extent to which conditions in the housing subject life or property to the danger of fire or other hazard.

(e) If a county housing authority has outstanding obligations, the commissioners court may not adopt a resolution declaring a need for a regional housing authority unless:

(1) each obligee of the county housing authority and each party to a contract, bond, note, or other obligation of the authority agrees to the substitution of a regional housing authority on the contract, bond, note, or other obligation; and

(2) the commissioners of the county housing authority adopt a resolution consenting to the transfer of the rights, contracts, obligations, and real and personal property of the county housing authority to a regional housing authority.

(f) Before a resolution authorized by this section may be adopted, the commissioners court must hold a public hearing. Before the 10th day before the date of the hearing, the county clerk shall publish notice of the time, place, and purpose of the hearing in a newspaper published in the county or, if no newspaper is published in the county, in a newspaper published in the state with general circulation in the county. At the hearing, the commissioners court shall grant an opportunity to be heard to residents of the county and other interested persons.

(g) In a proceeding involving the validity or enforcement of, or relating to, a contract of a regional housing authority, proof of an adoption of a resolution by the commissioners court of each county in the regional housing authority that declares that there is a need for the authority and makes the finding that the requirements of Subsection (c) exist is conclusive evidence that the regional housing authority is created and established as a public body corporate and politic that is authorized to transact business and exercise its powers under this chapter. A copy of the resolution of a commissioners court that is certified by the county clerk is admissible in evidence in the proceeding.

(h) When a regional housing authority is created:

(1) the rights, contracts, agreements, obligations, and property of the county housing authority become those of the regional housing authority;

(2) the county housing authority shall execute a deed of the property to the regional housing authority, which shall file the deed with the county clerk of the county where the real property is located; and

(3) a person with rights or remedies against the county housing authority may assert, enforce, and prosecute those rights or remedies against the regional housing authority.

(i) The vesting of the real property in the regional housing authority is not contingent on compliance with the provisions of Subsection (h)(2).

(j) At the time a regional housing authority is created, the county housing authority in a county for which the regional housing authority is created ceases to exist except for the purpose of winding up its affairs and executing the deed of its real property to the regional housing authority.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 392.0131. MERGER OF CERTAIN COUNTY HOUSING AUTHORITIES INTO MUNICIPAL HOUSING AUTHORITIES. (a) This section applies only to the merger of housing authorities operating in:

(1) a county that has a population of 800,000 or more and is located on the international border; and

(2) a municipality that has a population of more than 600,000 and less than 700,000 and is located in a county described by Subdivision (1).

(b) If the commissioners court of a county described by Subsection (a)(1) and the governing body of a municipality described by Subsection (a)(2) declare by resolutions that there is a need for the county housing authority to consolidate its powers with the municipal housing authority under this chapter, the county housing authority is merged into the housing authority for the municipality.

(c) The commissioners court and the governing body of the municipality may adopt a resolution declaring that there is a need for a merger as described by Subsection (b) only if the commissioners court and the governing body of the municipality each find that a

merged housing authority would be more efficient or economical than separate county and municipal housing authorities in carrying out the purposes of this chapter.

(d) In a proceeding involving the validity or enforcement of, or relating to, a contract of a merged housing authority, proof of a resolution adopted under Subsection (b) by the commissioners court of the county and the governing body of the municipality is conclusive evidence that the merged housing authority is authorized to transact business and exercise its powers under this chapter.

(e) When housing authorities are merged in the manner provided by this section:

(1) the rights, contracts, agreements, obligations, and property of the county housing authority become those of the municipal housing authority;

(2) the county housing authority shall execute deeds of the property to the municipal housing authority, which shall file the deeds with the county clerk of the county where the real property is located; and

(3) a person with rights or remedies against the county housing authority may assert, enforce, and prosecute those rights or remedies against the municipal housing authority.

(f) The vesting of the real property in the municipal housing authority is not contingent on compliance with Subsection (e)(2).

(g) At the time housing authorities are merged in the manner provided by this section, the county housing authority ceases to exist, except for the purpose of winding up the affairs of the authority and executing the deeds of real property to the municipal housing authority.

Sec. 392.0161. AREA OF OPERATION OF A MERGED HOUSING AUTHORITY. Notwithstanding Section 392.017(b), the area of operation of a merged housing authority is the county in which the authority is created, excluding any part of the county that is within the territorial boundaries of a municipality other than the municipality operating the municipal housing authority into which the county housing authority was merged.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1137 (H.B. 2975), Sec. 1, eff. June 14, 2013.

Sec. 392.017. OPERATION OF HOUSING AUTHORITY IN OTHER POLITICAL SUBDIVISIONS. (a) A county housing authority may not undertake a housing project in a municipality unless a resolution is adopted by the governing body of the municipality and by the housing authority authorized to exercise its powers exclusively in the municipality, if any:

(1) declaring a need for the county housing authority to exercise its powers in the municipality; and

(2) authorizing a cooperation agreement under Section 392.059.

(b) A municipal housing authority may not undertake a housing project outside the boundaries of the municipality in which it is authorized to exercise its powers unless a resolution is adopted by the governing body of the political subdivision in which the housing project is to be located and by the housing authority authorized to exercise its powers exclusively in the political subdivision, if any:

- (1) declaring a need for the municipal housing authority to exercise its powers in the political subdivision; and
- (2) authorizing a cooperation agreement under Section 392.059.

(c) A regional housing authority may not undertake a housing project in an unincorporated area of a county unless a resolution is adopted by the commissioners court of the county and by the housing authority authorized to exercise its powers in the county, if any:

- (1) declaring a need for the regional housing authority to exercise its powers in the county; and
- (2) authorizing a cooperation agreement under Section 392.059.

(d) A regional housing authority may not undertake a housing project in a municipality unless a resolution is adopted by the governing body of the municipality and by the housing authority authorized to exercise its powers exclusively in the municipality, if any:

Sec. 392.018. EXPANSION OF THE AREA OF OPERATION OF A REGIONAL HOUSING AUTHORITY. (a) If the commissioners of a regional housing authority, the commissioners court of each county in the authority, and the commissioners court of a county outside the authority each adopt a resolution declaring that there is a need to include the county that is outside the authority in the area of operation of the authority, the area of operation of the authority is increased to include that part of the county not within the territorial boundaries

of a municipality.

(b) The commissioners of the authority, the commissioners court of each county in the authority, and the commissioners court of the county outside the authority shall adopt the resolution required for expansion under Subsection (a) if:

(1) the commissioners court of the county outside the authority finds that there is unsanitary or unsafe inhabited housing in the county or a shortage of safe or sanitary housing in the county available to persons of low income at rentals they can afford; and

(2) the commissioners of the authority, the commissioners court of each county in the authority, and the commissioners court of the county outside the authority find that the regional housing authority would be a more efficient or economical administrative unit to carry out the purposes of this chapter if the county outside the authority is included in the area of operation of the authority.

(c) In determining whether housing is unsafe or unsanitary, the commissioners court shall consider the safety and sanitation of the housing, the availability to inhabitants of light and air space, the degree of overcrowding, the size and arrangement of rooms, and the extent to which conditions in the housing subject life or property to the danger of fire or other hazard.

(d) If the housing authority of the county outside the regional housing authority has outstanding obligations, the resolutions required for expansion under Subsection (a) may not be adopted unless:

(1) each obligee of the county housing authority and each party to a contract, bond, note, or other obligation of the authority agrees to the substitution of the regional housing authority on the contract, bond, note, or other obligation; and

(2) the commissioners of the county housing authority and of the regional housing authority adopt resolutions consenting to the transfer of the rights, contracts, obligations, and real and personal property of the county housing authority to the regional housing authority.

(e) If an obligee whose agreement is required by Subsection (d)(1) is unknown, the county housing authority shall publish a notice in a newspaper of general national circulation that states:

(1) the name of the county housing authority;

(2) the name of the regional housing authority;

(3) that the county and regional housing authorities

propose that the regional housing authority be substituted for the county housing authority on the contracts, bonds, notes, and other obligations of the county housing authority and that the county housing authority be terminated; and

(4) an address where objections to the substitution may be sent.

(f) The failure to receive an objection to the substitution of the regional housing authority on the obligations of the county housing authority on or before the 30th day after the date of the publication of the notice is equivalent to the unknown obligee's consent to the substitution.

(g) Before a resolution may be adopted under this section by the commissioners court, the court must hold a public hearing. Before the 10th day before the date of the hearing, the county clerk shall publish notice of the time, place, and purpose of the hearing in a newspaper published in the county or, if no newspaper is published in the county, in a newspaper published in the state with general circulation in the county. At the hearing, the commissioners court shall grant an opportunity to be heard to residents of the county and other interested persons.

(h) When all resolutions required by Subsections (a) and (d)(2) are adopted:

(2) the rights, contracts, agreements, obligations, and property of the county housing authority become those of the regional housing authority;

(3) the county housing authority shall execute a deed of the property to the regional housing authority, which shall file the deed with the county clerk of the county where the property is located; and

(4) a person with rights and remedies against the county housing authority may assert, enforce, and prosecute those rights and remedies against the regional housing authority.

(i) The vesting of the real property is not contingent on compliance with Subsection (h)(3).

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 392.019. EFFECT OF COOPERATION AGREEMENT ON AREA OF OPERATION OF HOUSING AUTHORITY. Regardless of Sections 392.015, 392.016, and 392.0161, the area of operation of a municipal housing authority, a county housing authority, a regional housing authority, or a merged housing authority may extend to and include another municipality, county, or other political subdivision of this state, under the terms of a cooperation agreement made under Section 392.059.

Sec. 393.002. LEGISLATIVE FINDINGS; PURPOSE. (a) The legislature has found in the Housing Authorities Law (Chapter 392) that:

- (1) unsafe and unsanitary housing conditions exist in this state for persons of low income;
- (2) there is a shortage of safe and sanitary dwellings for those persons;
- (3) those conditions require excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities; and
- (4) the public interest requires the remedying of those conditions.

(b) The legislature finds and declares that:

- (1) the assistance provided under this chapter to remedy the conditions described in the Housing Authorities Law constitutes a public purpose and an essential governmental function for which public money may be spent and other aid given;
- (2) it is a proper public purpose for a public body to aid a housing authority that operates within the boundaries or jurisdiction of the public body or to aid a housing project within its boundaries or jurisdiction because the public body derives immediate benefits and advantages from the authority or project; and
- (3) this chapter is necessary in the public interest.

Sec. 393.005. RESTRICTION ON CERTAIN HOUSING PROJECT CHANGES. A public body may not require changes to be made with respect to a housing project that a housing authority has acquired or taken over from the federal government and that the housing authority by resolution has found and declared to have been constructed in a manner that promotes the public interest and affords the necessary safety, sanitation, and other protection. The public body may not require changes to be made in the manner of the construction of the project and may not take other action relating to that construction.

The amount of those payments may not exceed the estimated cost to the public body of the improvements, services, or facilities.

(b) The absence of a contract for those payments does not relieve the public body from the duty to furnish for the benefit of the housing project the customary improvements and any services and facilities that the public body usually furnishes without a service fee.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 393.008. LOANS TO HOUSING AUTHORITY. (a) When a housing authority that is created for a municipality becomes operative, the governing body of the municipality shall immediately estimate the amount necessary for the administrative expenses and overhead of the housing authority during its first year of operation. The governing body shall appropriate that amount to the authority from money in the municipal treasury that is not appropriated for other purposes. The governing body shall pay that amount to the housing authority as a loan.

(b) Any municipality located wholly or partly within the area of operation of a housing authority may lend or agree to lend money to the housing authority at any time.

(c) The housing authority shall repay loans made to it under this section when it has money available for repayment.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

A copy of the notice must be published at least twice in the officially designated newspaper, if any, of the public body. The notice must state that at the expiration of 60 days the governing body will consider the question of whether to enter into a cooperation agreement.

(b) If, during the 60-day period, a petition signed by at least 2,000 of the qualified voters of the public body or by at least five percent of the qualified voters of the public body is presented to the governing body requesting that an election be held on the question, and if the petition is determined to have been signed by the requisite number of qualified voters, the governing body shall order an election to be held in the public body on the question. Two weeks' notice of the election must be given in the manner required by law for elections on the question of issuing tax-supported bonds. If a majority of the votes received in the election favor the cooperation agreement, the governing body shall execute the agreement.

(c) The governing body may also order such an election on its own motion. If a majority of the votes received in the election favor the cooperation agreement, the governing body may execute the agreement.

(d) If the governing body fails or refuses to give notice of its intention to enter a cooperation agreement with a housing authority or fails or refuses to submit the question to an election as provided by Subsection (c), then, on filing of a petition

If a majority of the votes received in the election favor the cooperation agreement, the governing body may execute the cooperation agreement.

(e) The laws relating to elections for the issuance of municipal or county bonds as prescribed by Chapter 1251, Government Code, apply to an election covered by this section unless those laws are inconsistent with this section or are superseded by the Election Code.

CHAPTER 394. HOUSING FINANCE CORPORATIONS IN MUNICIPALITIES AND COUNTIES

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 394.001. SHORT TITLE. This chapter may be cited as the Texas Housing Finance Corporations Act.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.002. PURPOSE; LEGISLATIVE FINDINGS. (a) The purpose of this chapter is to provide a means to finance the cost of residential ownership and development that will provide decent, safe, and sanitary housing at affordable prices for residents of local governments.

(b) The legislature finds that residential ownership and development:

- (1) promotes the public health, safety, morals, and welfare;
- (2) relieves conditions of unemployment and encourages the increase of industry, commercial activity, and other economic development to reduce the adverse effects of unemployment;
- (3) provides for efficient and well-planned urban growth and development, including the elimination and prevention of

potential urban blight and the proper coordination of industrial facilities with public services, mass transportation, and residential development;

(4) assists persons of low and moderate income to acquire and own decent, safe, sanitary, and affordable housing; and

(5) preserves and increases the ad valorem tax bases of local governments.

(c) The legislature finds that the accomplishment of the results described by Subsection (b) is a public purpose and function and lessens the burdens of government. The legislature further finds that:

(1) the creation of a housing finance corporation is for the benefit of the people of the state, improves the public health and welfare, and promotes the economy;

(2) those purposes are public purposes; and

(3) the corporation, as a public instrumentality and nonprofit corporation, performs an essential governmental function on behalf of and for the benefit of the general public, the local government, and this state.

(d) It is the intent of the legislature to authorize local governments to create and use public nonprofit corporations to issue obligations to accomplish the results described by Subsection (b).

SUBCHAPTER B. INCORPORATION OF HOUSING FINANCE CORPORATIONS

Sec. 394.011. APPLICATION FOR INCORPORATION. (a) The governing body of a local government shall consider a written application for the incorporation of a housing finance corporation filed with the governing body by at least three residents of the local government who are citizens of this state and at least 18 years of age.

(b) If the governing body by resolution determines that the formation of the housing finance corporation is wise, expedient, necessary, or advisable and approves the form of the proposed articles of incorporation of the corporation, the articles may be filed as provided by this chapter. A corporation may not be formed unless the application is filed with the governing body and the governing body adopts the resolution.

(c) The approval of the articles of incorporation of one housing finance corporation does not preclude the approval by the governing body of the articles of incorporation of additional corporations that have names or designations sufficient to distinguish them from previously created corporations. The governing body may not permit the incorporation on its behalf of more than one corporation that has the power to make or acquire home mortgages, or

to make loans to lending institutions, the proceeds of which are to be used to make home mortgages or to make loans on residential developments.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.012. APPLICATION FOR INCORPORATION OF, AND OTHER SPECIAL PROVISIONS FOR, JOINT CORPORATION. (a) The governing bodies of more than one local government may consider a written application for the incorporation of a joint housing finance corporation to act on behalf of the local governments filed by at least three residents of each sponsoring local government who are citizens of this state and at least 18 years of age.

(b) If each governing body by resolution determines that the formation of the joint housing finance corporation is wise, expedient, necessary, or advisable and approves the form of the proposed articles of incorporation of the joint corporation, the articles may be filed as provided by this chapter. The joint corporation may not be formed unless the application is filed with the governing body of each sponsoring local government and each governing body adopts the resolution.

(c) The approval of the articles of incorporation of the joint housing finance corporation does not preclude the approval by the governing body of the articles of incorporation of additional corporations that have names or designations sufficient to distinguish them from previously created corporations. A governing body that creates the joint corporation may not later create a corporation that has the power to make home mortgages or to make loans to lending institutions, the proceeds of which are to be used to make home mortgages or to make loans on residential developments.

(d) Each incorporator or director of the joint housing finance corporation must reside in a sponsoring local government. The initial directors of the joint corporation shall be appointed by all the sponsoring local governments. Succeeding directors shall be appointed by one or more of the sponsoring local governments as provided in the articles of incorporation or the bylaws of the joint corporation.

(e) The sponsoring local governments of the joint housing finance corporation are considered to be one local government for the

purposes of this chapter. If the action of the governing body of a local government is required, this chapter requires the action to be taken by the governing body of each sponsoring local government of the joint corporation.

(f) The joint housing finance corporation has all the powers granted to a housing finance corporation under this chapter. The joint corporation acts on behalf of each of the sponsoring local governments as provided by the articles of incorporation.

(g) The net earnings of the joint housing finance corporation and funds and properties of the joint housing finance corporation on dissolution shall be disbursed to the sponsoring local governments as provided by the articles of incorporation.

(h) For the purposes of determining the applicable population for Section 1372.026, Government Code, the joint housing finance corporation may only consider areas in its own state planning region.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1997, 75th Leg., ch. 1420, Sec. 10, eff. June 20, 1997; Acts 2001, 77th Leg., ch. 1420, Sec. 8.344, eff. Sept. 1, 2001.

Sec. 394.013. INCORPORATORS. Three or more residents of the local government who are at least 18 years of age may act as incorporators of the housing finance corporation by signing, verifying, and delivering in duplicate to the secretary of state the articles of incorporation for the corporation. An incorporator may be a member of the governing body, an officer, or an employee of the local government.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.014. ARTICLES OF INCORPORATION. (a) The articles of incorporation of the housing finance corporation must contain:

- (1) the name of the corporation;
- (2) a statement that the corporation is a public, nonprofit corporation;
- (3) the period of duration, which may be perpetual;
- (4) a statement that the corporation is organized solely to carry out the purposes of this chapter;
- (5) a statement that the corporation is to have no members;

(6) any provision not inconsistent with law, including any provision required or permitted under this chapter to be included in the bylaws, for the regulation of the internal affairs of the corporation;

(7) the street address of the corporation's initial registered office, which must be located in the local government, and the name of its initial registered agent at that address;

(8) the number of directors constituting the initial board of directors and the names and addresses of those directors, with a statement that each of them resides in the local government;

(9) the name and street address of each incorporator with a statement that each of them resides in the local government; and

(10) a statement that a resolution approving the form of the articles of incorporation has been adopted by the governing body of the local government and the date of the adoption of the resolution.

(b) A housing finance corporation may exercise any power prescribed by this chapter regardless of whether the power is stated in its articles of incorporation. The articles may prohibit the exercise of any power prescribed by this chapter.

(c) Unless the articles of incorporation provide that a change in the number of directors may be made only by amendment to the articles, a change in the number of directors may be made by an amendment to the bylaws. In all other cases if a provision of the articles is inconsistent with the bylaws, the articles provision controls.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.015. FILING OF ARTICLES OF INCORPORATION; ISSUANCE OF CERTIFICATE OF INCORPORATION. (a) Duplicate originals of the articles of incorporation must be delivered to the secretary of state. If the secretary of state finds that the articles of incorporation conform to this chapter, the secretary shall, when a \$25 fee is paid:

(1) endorse on each duplicate original the word "Filed" and the date of the filing;

(2) file one of the duplicate originals in the office of the secretary of state; and

(3) issue a certificate of incorporation, to which the secretary shall affix the other duplicate original.

(b) The secretary of state shall deliver the certificate of incorporation, with the affixed duplicate original, to the incorporators or their representatives.

(c) On the issuance of the certificate of incorporation, corporate existence begins. The certificate of incorporation is conclusive evidence that all conditions precedent required to be performed by the local government and the incorporators have been met and that the housing finance corporation is properly incorporated under this chapter.

(d) The housing finance corporation constitutes a public instrumentality and a nonprofit corporation under the name stated in the articles of incorporation. The corporation does not constitute a municipality, county, or other political corporation or subdivision of this state. The corporation may issue bonds and carry out the public purposes for which it is incorporated on behalf of and for the benefit of the general public, the local government, and this state.

(e) A copy of the articles of incorporation shall be delivered to the Texas Department on Aging.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.016. AMENDMENT OF ARTICLES OF INCORPORATION. (a) The articles of incorporation may be amended at any time in the manner provided by this section.

(b) The board of directors of the housing finance corporation may file a written application with the governing body of the local government requesting permission to amend the articles and specifying the proposed amendment. The governing body shall consider the application. If the governing body by resolution determines that the making of an amendment is wise, expedient, necessary, or advisable, authorizes the amendment, and approves the form of the amendment the board of directors may amend the articles by adopting the amendment at a meeting and delivering articles of amendment to the secretary of state.

(c) At a meeting, the governing body in its sole discretion may amend the articles of incorporation to change the structure, organization, programs, or activities of the housing finance

corporation, including the power to terminate the corporation, subject to any limitation on the impairment of contracts. The governing body shall deliver the articles of amendment to the secretary of state.

(d) The articles of amendment must be executed in duplicate. The president or vice-president of the housing finance corporation and the secretary or assistant secretary of the corporation must execute articles of amendment adopted by the board of directors. The presiding officer of the governing body of the local government and the local government's secretary or clerk must execute articles of amendment adopted by the governing body. The articles of amendment must be verified by one of the officers signing the articles. The articles of amendment must contain:

- (1) the name of the corporation;
- (2) if the amendment alters an original or amended provision of the articles of incorporation, an identification by reference to or description of the altered provision and a statement of the text as amended;
- (3) if the amendment is an addition to the original or amended articles of incorporation, a statement of that fact and the full text of the added provision; and
- (4) the date of the meeting of the board of directors or the governing body at which the amendment was adopted and a statement that the amendment received a majority vote of the corporation's directors or the governing body's members in office.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.017. FILING OF ARTICLES OF AMENDMENT; ISSUANCE OF CERTIFICATE OF AMENDMENT. (a) Duplicate originals of the articles of amendment must be delivered to the secretary of state. If the secretary of state finds that the articles of amendment conform to law, the secretary shall, when a \$25 fee is paid:

- (1) endorse on each duplicate original the word "Filed" and the date of the filing;
- (2) file one of the duplicate originals in the office of the secretary of state; and
- (3) issue a certificate of amendment, to which the secretary shall affix the other duplicate original.

(b) The secretary of state shall deliver the certificate of amendment, with the affixed duplicate original, to the housing finance corporation or its representative.

(c) On the issuance of the certificate of amendment, the amendment takes effect and the articles of incorporation are amended accordingly.

(d) An amendment does not affect an existing cause of action or any pending action to which the housing finance corporation is a party, or the existing rights of persons other than members. If the amendment changes the housing finance corporation's name, the change does not abate a suit brought by or against the corporation under its former name.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

SUBCHAPTER C. CORPORATE ADMINISTRATION AND OPERATION

(b) If the board of directors determines that sufficient provision has been made for full payment of the expenses, bonds, and other obligations of the corporation, any net corporate earnings accruing after the determination shall be paid to the local government. SUBCHAPTER E. HOUSING FINANCE CORPORATION BONDS

Sec. 394.051. BONDS; INVESTMENT. (a) A housing finance corporation may issue its bonds by resolution of the board of directors for the purposes prescribed by this chapter. The resolution takes effect immediately on adoption. The bonds bear interest at a rate authorized by Chapter 1204, Government Code, and are subject to the following terms provided by the resolution:

- (1) the time at which the bonds are payable;
- (2) the number of series in which the bonds are issued;
- (3) the dates that the bonds bear;
- (4) the time of maturity of the bonds;
- (5) the medium of payment and the place of payment of the bonds;
- (6) any registration privileges;

- (7) terms of redemption at certain premiums;
- (8) manner of execution of the bonds;
- (9) covenants and other terms of the bonds; and
- (10) the form of the bonds, either coupon or registered.

(b) The bonds may be sold at public or private sale in the manner and on the terms provided by the resolution. Pending the preparation of definitive bonds, any interim receipts or certificates in the form and with the provisions provided by the resolution may be issued to the purchasers of bonds sold under this chapter.

(c) The aggregate principal amount of bonds that a housing finance corporation may issue in a calendar year to defray costs described by Section 394.037(a)(2) may not exceed the total of:

- (1) the cost of issuance of the bonds, any reserves or capitalized interest required by the resolutions authorizing the bonds, plus any bond discounts; and
- (2) the largest of:
 - (A) \$20 million;
 - (B) the product of \$150 and the population of the local government as determined by the corporation's rules, resolutions relating to the issuance of bonds, or financing documents relating to the issuance of the bonds; or

(d) A determination made under Subsection (c)(2)(B) or (c)(2)(C) is conclusive.

(f) The housing finance corporation, or any trustee or custodian on behalf of the corporation, may invest any funds held by it as provided by the resolution authorizing the issuance of the bonds.

(g) The housing finance corporation is not required to acquire or hold title to a residential development, a home mortgage, or any interest in the development or mortgage.

(h) The housing finance corporation is not required to sell

commitments to lenders to originate home mortgages. A housing financing corporation may establish a program so that lenders will utilize the proceeds of the bonds to originate home mortgages on a first-come, first-served basis.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1997, 75th Leg., ch. 1420, Sec. 14, eff. June 20, 1997; Acts 2001, 77th Leg., ch. 1420, Sec. 8.345, eff. Sept. 1, 2001.

Sec. 394.052. BOND COVENANTS. (a) A resolution authorizing the issuance of bonds under this chapter may contain covenants relating to:

(1) the use and disposition of the bond proceeds and of the revenue and receipts from any residential development or home mortgages for which the bonds are issued, including the creation and maintenance of reserves;

(2) the issuance of other or additional bonds relating to any residential development or to any rehabilitation, improvement, renovation, or enlargement of, or addition to, a residential development;

(3) the maintenance and repair of a residential development or any homes;

(4) the insurance carried on any residential development, home, home mortgage, or bonds, and the use and disposition of insurance money;

(5) the appointment of one or more banks or trust companies located inside or outside this state that have the necessary trust powers as trustee or custodian for the benefit of the bondholders, paying agent, or bond registrar, and the investment of any funds held by the trustee or custodian;

(7) the maximum interest rate payable on any home mortgage; and

(8) the terms on which the bondholders or the trustees for the bonds are entitled to the appointment of a receiver by a court of competent jurisdiction.

(b) The terms established under Subsection (a)(8) relating to the appointment of a receiver may provide that the receiver may:

- (1) enter and take possession of all or part of the residential development or home mortgage;
- (2) maintain, lease, sell, or otherwise dispose of the development or mortgage;
- (3) prescribe rentals or other payments; and
- (4) collect, receive, and apply all income and other revenues that arise from the development or mortgage after the receiver takes possession.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.053. VALIDITY OF BONDS; SIGNATURES. (a) Bonds issued under this chapter must bear the actual or facsimile signature of the housing finance corporation's officers designated in the resolution authorizing the bonds. The validity of a signature of an officer of the corporation is not affected by the fact that before the delivery of the bond or its payment, a person whose signature appears on the bond ceases to be an officer.

(b) The validity of the bonds is not dependent on or affected by the validity or regularity of any proceedings relating to the residential development or home mortgages for which the bonds are issued.

(c) The resolution authorizing the bonds may require that the bonds contain a statement that they are issued under this chapter. The statement is conclusive evidence of the validity of the bonds and the regularity of their issuance.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.054. SECURITY FOR BONDS. (a) A resolution authorizing the issuance of bonds under this chapter may require that the principal of and interest on the bonds be secured by a mortgage, pledge, security interest, insurance agreement, or indenture of trust that covers the residential development or home mortgages for which the bonds are issued and may include any improvements or extensions made after the bonds are issued. A security instrument may contain covenants and agreements to properly safeguard the bonds as provided

by the resolution authorizing the bonds and shall be executed in the manner provided by the resolution.

(b) This chapter, the resolution, and the mortgage, pledge, security interest, or indenture of trust constitute a contract with the bondholders that continues in effect until the principal of and interest on the bonds and any redemption premiums have been fully paid or provision for payment has been made.

(c) The resolution, the mortgage, pledge, security interest, or indenture of trust, and the duties under this chapter of the housing finance corporation and its officers and other authorities are enforceable as provided by the resolution, the instrument, or this chapter by any bondholder by mandamus, by foreclosure of the mortgage, pledge, security interest, or indenture of trust, or by any other appropriate action in a court of competent jurisdiction. The resolution or the mortgage, pledge, security interest, or indenture of trust may provide that the remedies and rights to enforcement may be vested in a trustee, with full power of appointment, for the benefit of all the bondholders. The trustee is subject to the control of a number of bondholders or bond owners as provided in the resolution or instrument.

(d) Bonds issued under this chapter may be secured by a pledge of or a lien on all or part of the revenues, receipts, or other resources of the housing finance corporation, including the revenues and receipts derived from the residential development or home mortgages or from any notes or other obligations of lending institutions with respect to which the bonds have been issued. The board of directors may provide in the resolution authorizing the bonds for the issuance of additional bonds equally and ratably secured by a lien on the revenues and receipts or may provide that the lien on the revenues and receipts is subordinate. Subordinate lien bonds may also be issued unless prohibited by a bond resolution.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.055. LIABILITY FOR BONDS AND CONTRACTS; DEBT NOT CREATED. (a) Bonds issued under this chapter are limited obligations of the housing finance corporation and are payable solely from the revenue, receipts, and other resources pledged to their payment. A bondholder may not compel the local government to pay the

bond, the interest, or any redemption premium.

(b) The local government and this state are not liable in any way regarding bonds issued by the housing finance corporation. An agreement or obligation of the corporation does not constitute, within the meaning of a statutory or constitutional provision, an agreement, obligation, or debt of the state or the local government.

(c) The bonds do not constitute, within the meaning of a statutory or constitutional provision, an indebtedness, an obligation, or a loan of credit of the state, the local government, or any other municipality, county, or other municipal or political corporation or subdivision of the state. The bonds do not create a moral obligation on the part of any of those governmental entities with respect to the payment of the bonds. Those governmental entities may not make payments with respect to the bonds.

(d) The face of each bond must plainly state that it has been issued under this chapter and that it does not constitute, within the meaning of any statutory or constitutional provision, an indebtedness, an obligation, or a loan of credit of the state, the local government, or any other municipality, county, or other municipal or political corporation or subdivision of the state.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.056. BOND AS SECURITY. (a) A bond issued under this chapter or a coupon representing interest on the bond is, when delivered, a security as that term is defined under Chapter 8 of the Uniform Commercial Code (Chapter 8, Title 1, Business & Commerce Code) and is an exempt security under The Securities Act (Article 581-1 et seq., Vernon's Texas Civil Statutes).

(b) A contract made under this chapter is not a security under The Securities Act.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.057. BOND AS AUTHORIZED INVESTMENT OR AS SECURITY FOR DEPOSIT. (a) Bonds issued under this chapter are legal and authorized investments for any bank, savings bank, trust company, savings and loan association, insurance company, fiduciary, trustee, guardian, or sinking fund of a municipality, county, school district,

or other political corporation or subdivision of the state.

(b) The bonds are eligible to secure the deposit of any public funds of this state or of a municipality, county, school district, or other political corporation or subdivision of the state, and are lawful and sufficient securities for the deposits at face value if accompanied by all unmatured coupons, if any, appurtenant to the bonds.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

SUBCHAPTER Z. MISCELLANEOUS PROVISIONS

Sec. 394.901. DESIGNATION OF AREA AS ECONOMICALLY DEPRESSED OR BLIGHTED; NOTICE. (a) To designate an area as economically depressed or blighted under the meaning provided by Section 394.003(3)(B) or (C), the governing body of the affected municipality must hold a public hearing and must find that the area substantially impairs or arrests the sound growth of the municipality or that it constitutes an economic or social liability and is, in its current condition and use, a menace to the public health, safety, morals, or welfare.

(b) The governing body shall give notice of the hearing as provided by Chapter 551, Government Code, except that the notice must be published at least 10 days before the date of the hearing.

Sec. 394.902. HOUSING FOR ELDERLY. (a) The housing finance corporation shall require that at least five percent of the units in a multifamily residential development be built or renovated and be reserved for the lifetime of the development for occupancy by elderly persons of low income or by families of low or moderate income in which an elderly person is the head of a household if the development:

(1) contains at least 20 units; and
 (2) is financed by bonds issued under this chapter as a result of an official decision to issue bonds that occurs on or after January 1, 1986.

(b) Instead of requiring a reservation of units as required

under Subsection (a), the housing finance corporation may collect a fee equal to one-tenth percent of the total principal amount of the loan made for the multifamily residential development. The corporation shall collect the fee from the person who receives the loan at the time the loan is delivered. Immediately after the receipt of the fee, the corporation shall remit the fee to the Texas Department on Aging. The department shall deposit all funds received under this subsection to the credit of a special account in the general revenue fund. Funds in the special account may be used only to assist in obtaining housing for elderly persons or families in which an elderly person is the head of a household.

(c) If the housing finance corporation requires a reservation under Subsection (a), the design engineer for the development must certify to the corporation that the reserved units in the development meet standards set by the Texas Department on Aging for elderly persons.

(d) The governing body of the local government that authorizes, sponsors, or otherwise participates in the creation of the housing finance corporation shall cooperate with the Texas Department on Aging to implement this section and shall submit to the department an annual report relating to the number of developments financed under this chapter, the number of units reserved for the elderly persons or for families in which an elderly person is the head of the household, the amount of fees collected, and other information required by the department.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.9025. MULTIFAMILY RESIDENTIAL DEVELOPMENT. (a) Following a public hearing, a housing finance corporation may issue bonds to finance a multifamily residential development to be owned by the housing finance corporation if at least 50 percent of the units in the multifamily residential development are reserved for occupancy by individuals and families earning less than 80 percent of the area median family income.

(b) Following a public hearing by the governing body of the local government, a housing finance corporation may issue bonds to finance a multifamily residential development to be owned by the housing finance corporation in accordance with Section 394.004 if the

housing finance corporation receives approval of the governing body of the local government.

Added by Acts 2001, 77th Leg., ch. 1493, Sec. 3, eff. Aug. 31, 2002.

Sec. 394.903. LOCATION OF RESIDENTIAL DEVELOPMENT; RESIDENTIAL DEVELOPMENT SITES. (a) A residential development covered by this chapter must be located within the local government.

(b) The local government may transfer any residential development site to a housing finance corporation by sale or lease. The governing body of the local government may authorize the transfer by resolution without submitting the issue to the voters and without regard to the requirements, restrictions, limitations, or other provisions contained in any other general, special, or local law. The site may be located wholly or partly inside or outside the local government.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.904. EXEMPTION FROM REQUIREMENTS AND RESTRICTIONS APPLYING TO PUBLIC PROPERTY. (a) The acquisition, construction, or rehabilitation of a private residential development or a home is not subject to requirements relating to public buildings, structures, grounds, works, or improvements imposed by the laws of this state, or to any other similar requirements.

(b) Any competitive bidding requirement or restriction imposed on the procedure regarding the award of contracts for that acquisition, construction, or rehabilitation or regarding the lease, sale, or other disposition of property of the local government is not applicable to any action taken under this chapter.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.905. EXEMPTION FROM TAXATION. The housing finance corporation, all property owned by it, the income from the property, all bonds issued by it, the income from the bonds, and the transfer of the bonds are exempt, as public property used for public purposes, from license fees, recording fees, and all other taxes imposed by

this state or any political subdivision of this state. The corporation is exempt from the franchise tax imposed by Chapter 171, Tax Code, only if the corporation is exempted by that chapter.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

Sec. 394.906. CONDITIONS UNDER WHICH FEDERAL GUARANTEE OR HOME MORTGAGE INSURANCE NOT REQUIRED. A home mortgage does not require a federal guarantee or home mortgage insurance if the principal of and interest on the housing finance corporation's bonds issued to make or purchase the home mortgage or to make loans to lending institutions are guaranteed or insured by an agency, department, or instrumentality of the United States or by an insurance or surety company authorized to issue municipal bond insurance.

Acts 1987, 70th Leg., ch. 149, Sec. 1, eff. Sept. 1, 1987.

**CHAPTER 395. FINANCING CAPITAL IMPROVEMENTS REQUIRED BY NEW
DEVELOPMENT IN MUNICIPALITIES, COUNTIES, AND CERTAIN OTHER LOCAL
GOVERNMENTS**

SUBCHAPTER A. GENERAL PROVISIONS

Sec. 395.001. DEFINITIONS. In this chapter:

(1) "Capital improvement" means any of the following facilities that have a life expectancy of three or more years and are owned and operated by or on behalf of a political subdivision:

(A) water supply, treatment, and distribution facilities; wastewater collection and treatment facilities; and storm water, drainage, and flood control facilities; whether or not they are located within the service area; and

(B) roadway facilities.

(2) "Capital improvements plan" means a plan required by this chapter that identifies capital improvements or facility expansions for which impact fees may be assessed.

(3) "Facility expansion" means the expansion of the capacity of an existing facility that serves the same function as an otherwise necessary new capital improvement, in order that the existing facility may serve new development. The term does not include the repair, maintenance, modernization, or expansion of an existing facility to better serve existing development.

(4) "Impact fee" means a charge or assessment imposed by a political subdivision against new development in order to generate revenue for funding or recouping the costs of capital improvements or facility expansions necessitated by and attributable to the new development. The term includes amortized charges, lump-sum charges, capital recovery fees, contributions in aid of construction, and any other fee that functions as described by this definition. The term does not include:

(A) dedication of land for public parks or payment in lieu of the dedication to serve park needs;

(B) dedication of rights-of-way or easements or construction or dedication of on-site or off-site water distribution, wastewater collection or drainage facilities, or streets, sidewalks, or curbs if the dedication or construction is required by a valid ordinance and is necessitated by and attributable to the new development;

(C) lot or acreage fees to be placed in trust funds for the purpose of reimbursing developers for oversizing or constructing water or sewer mains or lines; or

(D) other pro rata fees for reimbursement of water or sewer mains or lines extended by the political subdivision.

However, an item included in the capital improvements plan may not be required to be constructed except in accordance with Section

395.019(2), and an owner may not be required to construct or dedicate facilities and to pay impact fees for those facilities.

(5) "Land use assumptions" includes a description of the service area and projections of changes in land uses, densities, intensities, and population in the service area over at least a 10-year period.

(6) "New development" means the subdivision of land; the construction, reconstruction, redevelopment, conversion, structural alteration, relocation, or enlargement of any structure; or any use or extension of the use of land; any of which increases the number of service units.

(7) "Political subdivision" means a municipality, a district or authority created under Article III, Section 52, or Article XVI, Section 59, of the Texas Constitution, or, for the purposes set forth by Section 395.079, certain counties described by that section.

(8) "Roadway facilities" means arterial or collector streets or roads that have been designated on an officially adopted roadway plan of the political subdivision, together with all necessary appurtenances. The term includes the political subdivision's share of costs for roadways and associated improvements designated on the federal or Texas highway system, including local matching funds and costs related to utility line relocation and the establishment of curbs, gutters, sidewalks, drainage appurtenances, and rights-of-way.

(9) "Service area" means the area within the corporate boundaries or extraterritorial jurisdiction, as determined under Chapter 42, of the political subdivision to be served by the capital improvements or facilities expansions specified in the capital improvements plan, except roadway facilities and storm water, drainage, and flood control facilities. The service area, for the purposes of this chapter, may include all or part of the land within the political subdivision or its extraterritorial jurisdiction, except for roadway facilities and storm water, drainage, and flood control facilities. For roadway facilities, the service area is limited to an area within the corporate boundaries of the political subdivision and shall not exceed six miles. For storm water, drainage, and flood control facilities, the service area may include all or part of the land within the political subdivision or its extraterritorial jurisdiction, but shall not exceed the area actually

served by the storm water, drainage, and flood control facilities designated in the capital improvements plan and shall not extend across watershed boundaries.

(10) "Service unit" means a standardized measure of consumption, use, generation, or discharge attributable to an individual unit of development calculated in accordance with generally accepted engineering or planning standards and based on historical data and trends applicable to the political subdivision in which the individual unit of development is located during the previous 10 years.

SUBCHAPTER B. AUTHORIZATION OF IMPACT FEE

Sec. 395.011. AUTHORIZATION OF FEE. (a) Unless otherwise specifically authorized by state law or this chapter, a governmental entity or political subdivision may not enact or impose an impact fee.

(b) Political subdivisions may enact or impose impact fees on land within their corporate boundaries or extraterritorial jurisdictions only by complying with this chapter, except that impact fees may not be enacted or imposed in the extraterritorial jurisdiction for roadway facilities.

(c) A municipality may contract to provide capital improvements, except roadway facilities, to an area outside its corporate boundaries and extraterritorial jurisdiction and may charge an impact fee under the contract, but if an impact fee is charged in that area, the municipality must comply with this chapter.

Sec. 395.012. ITEMS PAYABLE BY FEE. (a) An impact fee may be imposed only to pay the costs of constructing capital improvements or facility expansions, including and limited to the:

- (1) construction contract price;
- (2) surveying and engineering fees;
- (3) land acquisition costs, including land purchases, court

awards and costs, attorney's fees, and expert witness fees; and

(4) fees actually paid or contracted to be paid to an independent qualified engineer or financial consultant preparing or updating the capital improvements plan who is not an employee of the political subdivision.

(b) Projected interest charges and other finance costs may be included in determining the amount of impact fees only if the impact fees are used for the payment of principal and interest on bonds, notes, or other obligations issued by or on behalf of the political subdivision to finance the capital improvements or facility expansions identified in the capital improvements plan and are not used to reimburse bond funds expended for facilities that are not identified in the capital improvements plan.

(c) Notwithstanding any other provision of this chapter, the Edwards Underground Water District or a river authority that is authorized elsewhere by state law to charge fees that function as impact fees may use impact fees to pay a staff engineer who prepares or updates a capital improvements plan under this chapter.

(d) A municipality may pledge an impact fee as security for the payment of debt service on a bond, note, or other obligation issued to finance a capital improvement or public facility expansion if:

(1) the improvement or expansion is identified in a capital improvements plan; and

(2) at the time of the pledge, the governing body of the municipality certifies in a written order, ordinance, or resolution that none of the impact fee will be used or expended for an improvement or expansion not identified in the plan.

(e) A certification under Subsection (d)(2) is sufficient evidence that an impact fee pledged will not be used or expended for an improvement or expansion that is not identified in the capital improvements plan.

Sec. 395.013. ITEMS NOT PAYABLE BY FEE. Impact fees may not be adopted or used to pay for:

(1) construction, acquisition, or expansion of public facilities or assets other than capital improvements or facility

expansions identified in the capital improvements plan;

(2) repair, operation, or maintenance of existing or new capital improvements or facility expansions;

(3) upgrading, updating, expanding, or replacing existing capital improvements to serve existing development in order to meet stricter safety, efficiency, environmental, or regulatory standards;

(4) upgrading, updating, expanding, or replacing existing capital improvements to provide better service to existing development;

(5) administrative and operating costs of the political subdivision, except the Edwards Underground Water District or a river authority that is authorized elsewhere by state law to charge fees that function as impact fees may use impact fees to pay its administrative and operating costs;

(6) principal payments and interest or other finance charges on bonds or other indebtedness, except as allowed by Section 395.012.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.014. CAPITAL IMPROVEMENTS PLAN. (a) The political subdivision shall use qualified professionals to prepare the capital improvements plan and to calculate the impact fee. The capital improvements plan must contain specific enumeration of the following items:

(1) a description of the existing capital improvements within the service area and the costs to upgrade, update, improve, expand, or replace the improvements to meet existing needs and usage and stricter safety, efficiency, environmental, or regulatory standards, which shall be prepared by a qualified professional engineer licensed to perform the professional engineering services in this state;

(2) an analysis of the total capacity, the level of current usage, and commitments for usage of capacity of the existing capital improvements, which shall be prepared by a qualified professional engineer licensed to perform the professional engineering services in this state;

(3) a description of all or the parts of the capital improvements or facility expansions and their costs necessitated by

and attributable to new development in the service area based on the approved land use assumptions, which shall be prepared by a qualified professional engineer licensed to perform the professional engineering services in this state;

(4) a definitive table establishing the specific level or quantity of use, consumption, generation, or discharge of a service unit for each category of capital improvements or facility expansions and an equivalency or conversion table establishing the ratio of a service unit to various types of land uses, including residential, commercial, and industrial;

(5) the total number of projected service units necessitated by and attributable to new development within the service area based on the approved land use assumptions and calculated in accordance with generally accepted engineering or planning criteria;

(6) the projected demand for capital improvements or facility expansions required by new service units projected over a reasonable period of time, not to exceed 10 years; and

(7) a plan for awarding:

(A) a credit for the portion of ad valorem tax and utility service revenues generated by new service units during the program period that is used for the payment of improvements, including the payment of debt, that are included in the capital improvements plan; or

(B) in the alternative, a credit equal to 50 percent of the total projected cost of implementing the capital improvements plan.

(b) The analysis required by Subsection (a)(3) may be prepared on a systemwide basis within the service area for each major category of capital improvement or facility expansion for the designated service area.

(c) The governing body of the political subdivision is responsible for supervising the implementation of the capital improvements plan in a timely manner.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.
Amended by Acts 2001, 77th Leg., ch. 345, Sec. 2, eff. Sept. 1, 2001.

Sec. 395.015. MAXIMUM FEE PER SERVICE UNIT. (a) The impact

fee per service unit may not exceed the amount determined by subtracting the amount in Section 395.014(a)(7) from the costs of the capital improvements described by Section 395.014(a)(3) and dividing that amount by the total number of projected service units described by Section 395.014(a)(5).

(b) If the number of new service units projected over a reasonable period of time is less than the total number of new service units shown by the approved land use assumptions at full development of the service area, the maximum impact fee per service unit shall be calculated by dividing the costs of the part of the capital improvements necessitated by and attributable to projected new service units described by Section 395.014(a)(6) by the projected new service units described in that section.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.
Amended by Acts 2001, 77th Leg., ch. 345, Sec. 3, eff. Sept. 1, 2001.

Sec. 395.016. TIME FOR ASSESSMENT AND COLLECTION OF FEE. (a) This subsection applies only to impact fees adopted and land platted before June 20, 1987. For land that has been platted in accordance with Subchapter A, Chapter 212, or the subdivision or platting procedures of a political subdivision before June 20, 1987, or land on which new development occurs or is proposed without platting, the political subdivision may assess the impact fees at any time during the development approval and building process. Except as provided by Section 395.019, the political subdivision may collect the fees at either the time of recordation of the subdivision plat or connection to the political subdivision's water or sewer system or at the time the political subdivision issues either the building permit or the certificate of occupancy.

(b) This subsection applies only to impact fees adopted before June 20, 1987, and land platted after that date. For new development which is platted in accordance with Subchapter A, Chapter 212, or the subdivision or platting procedures of a political subdivision after June 20, 1987, the political subdivision may assess the impact fees before or at the time of recordation. Except as provided by Section 395.019, the political subdivision may collect the fees at either the time of recordation of the subdivision plat or connection to the political subdivision's water or sewer system or at the time the

political subdivision issues either the building permit or the certificate of occupancy.

(c) This subsection applies only to impact fees adopted after June 20, 1987. For new development which is platted in accordance with Subchapter A, Chapter 212, or the subdivision or platting procedures of a political subdivision before the adoption of an impact fee, an impact fee may not be collected on any service unit for which a valid building permit is issued within one year after the date of adoption of the impact fee.

(d) This subsection applies only to land platted in accordance with Subchapter A, Chapter 212, or the subdivision or platting procedures of a political subdivision after adoption of an impact fee adopted after June 20, 1987. The political subdivision shall assess the impact fees before or at the time of recordation of a subdivision plat or other plat under Subchapter A, Chapter 212, or the subdivision or platting ordinance or procedures of any political subdivision in the official records of the county clerk of the county in which the tract is located. Except as provided by Section 395.019, if the political subdivision has water and wastewater capacity available:

(1) the political subdivision shall collect the fees at the time the political subdivision issues a building permit;

(2) for land platted outside the corporate boundaries of a municipality, the municipality shall collect the fees at the time an application for an individual meter connection to the municipality's water or wastewater system is filed; or

(3) a political subdivision that lacks authority to issue building permits in the area where the impact fee applies shall collect the fees at the time an application is filed for an individual meter connection to the political subdivision's water or wastewater system.

(e) For land on which new development occurs or is proposed to occur without platting, the political subdivision may assess the impact fees at any time during the development and building process and may collect the fees at either the time of recordation of the subdivision plat or connection to the political subdivision's water or sewer system or at the time the political subdivision issues either the building permit or the certificate of occupancy.

(f) An "assessment" means a determination of the amount of the impact fee in effect on the date or occurrence provided in this

section and is the maximum amount that can be charged per service unit of such development. No specific act by the political subdivision is required.

(g) Notwithstanding Subsections (a)-(e) and Section 395.017, the political subdivision may reduce or waive an impact fee for any service unit that would qualify as affordable housing under 42 U.S.C. Section 12745, as amended, once the service unit is constructed. If affordable housing as defined by 42 U.S.C. Section 12745, as amended, is not constructed, the political subdivision may reverse its decision to waive or reduce the impact fee, and the political subdivision may assess an impact fee at any time during the development approval or building process or after the building process if an impact fee was not already assessed.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989. Amended by Acts 1997, 75th Leg., ch. 980, Sec. 52, eff. Sept. 1, 1997; Acts 2001, 77th Leg., ch. 345, Sec. 4, eff. Sept. 1, 2001.

Sec. 395.017. ADDITIONAL FEE PROHIBITED; EXCEPTION. After assessment of the impact fees attributable to the new development or execution of an agreement for payment of impact fees, additional impact fees or increases in fees may not be assessed against the tract for any reason unless the number of service units to be developed on the tract increases. In the event of the increase in the number of service units, the impact fees to be imposed are limited to the amount attributable to the additional service units.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.018. AGREEMENT WITH OWNER REGARDING PAYMENT. A political subdivision is authorized to enter into an agreement with the owner of a tract of land for which the plat has been recorded providing for the time and method of payment of the impact fees.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.019. COLLECTION OF FEES IF SERVICES NOT AVAILABLE. Except for roadway facilities, impact fees may be assessed but may

not be collected in areas where services are not currently available unless:

(1) the collection is made to pay for a capital improvement or facility expansion that has been identified in the capital improvements plan and the political subdivision commits to commence construction within two years, under duly awarded and executed contracts or commitments of staff time covering substantially all of the work required to provide service, and to have the service available within a reasonable period of time considering the type of capital improvement or facility expansion to be constructed, but in no event longer than five years;

(2) the political subdivision agrees that the owner of a new development may construct or finance the capital improvements or facility expansions and agrees that the costs incurred or funds advanced will be credited against the impact fees otherwise due from the new development or agrees to reimburse the owner for such costs from impact fees paid from other new developments that will use such capital improvements or facility expansions, which fees shall be collected and reimbursed to the owner at the time the other new development records its plat; or

(3) an owner voluntarily requests the political subdivision to reserve capacity to serve future development, and the political subdivision and owner enter into a valid written agreement.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.020. ENTITLEMENT TO SERVICES. Any new development for which an impact fee has been paid is entitled to the permanent use and benefit of the services for which the fee was exacted and is entitled to receive immediate service from any existing facilities with actual capacity to serve the new service units, subject to compliance with other valid regulations.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.021. AUTHORITY OF POLITICAL SUBDIVISIONS TO SPEND FUNDS TO REDUCE FEES. Political subdivisions may spend funds from any lawful source to pay for all or a part of the capital improvements or facility expansions to reduce the amount of impact

fees.

Sec. 395.022. AUTHORITY OF POLITICAL SUBDIVISION TO PAY FEES.

(a) Political subdivisions and other governmental entities may pay impact fees imposed under this chapter.

(b) A school district is not required to pay impact fees imposed under this chapter unless the board of trustees of the district consents to the payment of the fees by entering a contract with the political subdivision that imposes the fees. The contract may contain terms the board of trustees considers advisable to provide for the payment of the fees.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.024. ACCOUNTING FOR FEES AND INTEREST. (a) The order, ordinance, or resolution levying an impact fee must provide that all funds collected through the adoption of an impact fee shall be deposited in interest-bearing accounts clearly identifying the category of capital improvements or facility expansions within the service area for which the fee was adopted.

(b) Interest earned on impact fees is considered funds of the account on which it is earned and is subject to all restrictions placed on use of impact fees under this chapter.

(c) Impact fee funds may be spent only for the purposes for which the impact fee was imposed as shown by the capital improvements

plan and as authorized by this chapter.

(d) The records of the accounts into which impact fees are deposited shall be open for public inspection and copying during ordinary business hours.

Added by Acts 1989, 71st Leg., ch. 1, Sec. 82(a), eff. Aug. 28, 1989.

Sec. 395.025. REFUNDS. (a) On the request of an owner of the property on which an impact fee has been paid, the political subdivision shall refund the impact fee if existing facilities are available and service is denied or the political subdivision has, after collecting the fee when service was not available, failed to commence construction within two years or service is not available within a reasonable period considering the type of capital improvement or facility expansion to be constructed, but in no event later than five years from the date of payment under Section 395.019(1).

(b) Repealed by Acts 2001, 77th Leg., ch. 345, Sec. 9, eff. Sept. 1, 2001.

(c) The political subdivision shall refund any impact fee or part of it that is not spent as authorized by this chapter within 10 years after the date of payment.

(d) Any refund shall bear interest calculated from the date of collection to the date of refund at the statutory rate as set forth in Section 302.002, Finance Code, or its successor statute.

(e) All refunds shall be made to the record owner of the property at the time the refund is paid. However, if the impact fees were paid by another political subdivision or governmental entity, payment shall be made to the political subdivision or governmental entity.

(f) The owner of the property on which an impact fee has been paid or another political subdivision or governmental entity that paid the impact fee has standing to sue for a refund under this section.

Sec. 395.0575. DETERMINATION THAT NO UPDATE OF LAND USE ASSUMPTIONS, CAPITAL IMPROVEMENTS PLAN OR IMPACT FEES IS NEEDED. (a) If, at the time an update under Section 395.052 is required, the governing body determines that no change to the land use assumptions, capital improvements plan, or impact fee is needed, it may, as an alternative to the updating requirements of Sections 395.052-395.057, do the following:

(1) The governing body of the political subdivision shall, upon determining that an update is unnecessary and 60 days before publishing the final notice under this section, send notice of its determination not to update the land use assumptions, capital improvements plan, and impact fee by certified mail to any person who has, within two years preceding the date that the final notice of this matter is to be published, give written notice by certified or registered mail to the municipal secretary or other designated official of the political subdivision requesting notice of hearings related to impact fees. The notice must contain the information in Subsections (b)(2)-(5).

(2) The political subdivision shall publish notice of its determination once a week for three consecutive weeks in one or more newspapers with general circulation in each county in which the political subdivision lies. However, a river authority that is authorized elsewhere by state law to charge fees that function as impact fees may publish the required newspaper notice only in each county in which the service area lies. The notice of public hearing may not be in the part of the paper in which legal notices and classified ads appear and may not be smaller than one-quarter page of a standard-size or tabloid-size newspaper, and the headline on the notice must be in 18-point or larger type.

(b) The notice must contain the following:

(1) a headline to read as follows:

"NOTICE OF DETERMINATION NOT TO UPDATE
LAND USE ASSUMPTIONS, CAPITAL IMPROVEMENTS
PLAN, OR IMPACT FEES";

(2) a statement that the governing body of the political subdivision has determined that no change to the land use assumptions, capital improvements plan, or impact fee is necessary;

(3) an easily understandable description and a map of the service area in which the updating has been determined to be unnecessary;

(4) a statement that if, within a specified date, which date shall be at least 60 days after publication of the first notice, a person makes a written request to the designated official of the political subdivision requesting that the land use assumptions, capital improvements plan, or impact fee be updated, the governing body must comply with the request by following the requirements of Sections 395.052-395.057; and

(5) a statement identifying the name and mailing address of the official of the political subdivision to whom a request for an update should be sent.

(c) The advisory committee shall file its written comments on the need for updating the land use assumptions, capital improvements plans, and impact fee before the fifth business day before the earliest notice of the government's decision that no update is necessary is mailed or published.

(d) If, by the date specified in Subsection (b)(4), a person requests in writing that the land use assumptions, capital improvements plan, or impact fee be updated, the governing body shall cause an update of the land use assumptions and capital improvements plan to be prepared in accordance with Sections 395.052-395.057.

(e) An ordinance, order, or resolution determining the need for updating land use assumptions, a capital improvements plan, or an impact fee may not be adopted as an emergency measure.

Added by Acts 1989, 71st Leg., ch. 566, Sec. 1(d), eff. Aug. 28, 1989.

Sec. 395.058. ADVISORY COMMITTEE. (a) On or before the date on which the order, ordinance, or resolution is adopted under Section

395.042, the political subdivision shall appoint a capital improvements advisory committee.

(b) The advisory committee is composed of not less than five members who shall be appointed by a majority vote of the governing body of the political subdivision. Not less than 40 percent of the membership of the advisory committee must be representatives of the real estate, development, or building industries who are not employees or officials of a political subdivision or governmental entity. If the political subdivision has a planning and zoning commission, the commission may act as the advisory committee if the commission includes at least one representative of the real estate, development, or building industry who is not an employee or official of a political subdivision or governmental entity. If no such representative is a member of the planning and zoning commission, the commission may still act as the advisory committee if at least one such representative is appointed by the political subdivision as an ad hoc voting member of the planning and zoning commission when it acts as the advisory committee. If the impact fee is to be applied in the extraterritorial jurisdiction of the political subdivision, the membership must include a representative from that area.

(c) The advisory committee serves in an advisory capacity and is established to:

(1) advise and assist the political subdivision in adopting land use assumptions;

(2) review the capital improvements plan and file written comments;

(3) monitor and evaluate implementation of the capital improvements plan;

(4) file semiannual reports with respect to the progress of the capital improvements plan and report to the political subdivision any perceived inequities in implementing the plan or imposing the impact fee; and

(5) advise the political subdivision of the need to update or revise the land use assumptions, capital improvements plan, and impact fee.

(d) The political subdivision shall make available to the advisory committee any professional reports with respect to developing and implementing the capital improvements plan.

(e) The governing body of the political subdivision shall adopt procedural rules for the advisory committee to follow in carrying out

its duties.

The commission shall adopt rules for reviewing the petition and may charge the petitioner fees adequate to cover the cost of processing and considering the petition. The rules shall require notice substantially the same as that required by this chapter for the adoption of impact fees and shall afford opportunity for all affected parties to participate.

(1) the holder of any mortgage lien on the property must be
given written notice of the owner's intention to participate in a

(2) has the same priority status as a lien for any other ad valorem tax.

(a-1) After the notice of a contractual assessment is recorded as provided under Section 399.013, the lien may not be contested on the basis that the improvement is not a qualified improvement or the project is not a qualified project.

(c) One or more local governments may contract with a third party, including another local government, to administer a program. Local governments that are parties to an interlocal contract described by Subsection (a) may contract with an entity listed in Section 791.013, Government Code, for program administration.

(a) In this section, "water control body" means a municipality, county, levee district, water control and improvement district, water improvement district, navigation district, or other body politic created under the laws of the state with statutory powers concerned with the control of harmful excess of water.

(b) To change or abate by mechanical means a harmful excess of water, either constant or periodic, that threatens life and property within its boundaries, a municipality with a population of 150,001 to 239,999 may:

(1) straighten, widen, levee, restrain, or otherwise control or improve a river, creek, bayou, stream, or other body of water;

(2) grade or fill land; or

(3) take other appropriate actions.

(c) The municipality may pay for an improvement, or a part of an improvement, under Subsection (b) in the manner provided by Section 372.041 or any other manner not expressly prohibited by the charter of the municipality.

municipality may contribute to the payment of the cost, replacement, alteration, extension, maintenance, and operation of the improvement.

(e) If an improvement under Subsection (b) is provided and operated by the municipality, the municipality may solicit and receive from another water control body a contribution for the payment of the cost, alteration, enlargement, maintenance, and operation of the improvement.

(f) The municipality may purchase or otherwise acquire and take over any improvement or the maintenance or operation of any improvement and may contract to assume an outstanding bond debt or other debt secured by lien if:

(1) the debt was incurred to provide for the improvement; and

(2) the interest on the debt is not greater than six percent a year.

(g) The municipality may not, in purchasing or otherwise acquiring an improvement or the right to maintain and control property of a levee or improvement district, assume the bonded indebtedness outstanding and owing by the district unless the municipality is authorized to do so at an election at which the qualified voters of the municipality approve the assumption of indebtedness or maintenance.

(h) Subsection (f) supersedes any provision in a municipal charter that is not in conformity with that subsection. Subsection (f) does not authorize an increase in the municipal debt limit fixed by law.

(i) The municipality may contract with a water control body to perform, jointly with a water control body or independently, an action authorized by this section.

(j) Water control bodies otherwise having appropriate powers may use this section and contract with one another to accomplish the purposes of this section.

(b) A municipality may purchase, construct, or operate a utility system inside or outside the municipal boundaries and may regulate the system in a manner that protects the interests of the municipality. The municipality may own land inside or outside its boundaries for these purposes.

(c) A municipality may extend the lines of its utility systems outside the municipal boundaries and may sell water, sewer, gas, or electric service to any person outside its boundaries. The municipality may contract with persons outside its boundaries to permit them to connect with those utility systems on terms the municipality considers to be in its best interest. This subsection does not authorize the extension of electric lines into the corporate limits of another municipality.

(d) A municipality that owns or operates a utility system may prescribe the kind of water or gas mains, sewer pipes, and electric appliances that may be used inside or outside the municipality. The municipality may inspect those facilities and appliances, require that they be kept in good condition at all times, and prescribe the necessary rules, which may include penalties, concerning them.

(b) A home-rule municipality may buy, own, construct inside or outside the municipal limits, and maintain and operate a gas system, electric lighting plant, sewage plant, or other public service or public utility and may require and receive compensation for services

furnished for private purposes or otherwise. The municipality may use eminent domain authority to appropriate real property, rights-of-way, or other property as necessary to efficiently carry out those objects. The municipality may condemn the property of any person that conducts such a business or utility service for the purpose of operating and maintaining the public service or public utility and distributing the utility services in the municipality. In its charter, the municipality may adopt rules it considers advisable for the acquisition or operation of the public service or public utility.

(c) The municipality may manufacture its own electricity, gas, or anything else needed or used by the public. It may purchase, and make contracts for the purchase of, gas, electricity, oil, or any other commodity or article used by the public and may sell it to the public on terms as provided by the municipal charter, ordinance, or resolution of the governing body of the municipally owned utility.

(c) A municipality may require varying utility deposits for customers as it deems appropriate in each case.

(d) Except as provided in Subsections (e) and (f), a municipality may by ordinance impose a lien against an owner's

property, unless it is a homestead as protected by the Texas Constitution, for delinquent bills for municipal utility service to the property.

(e) The municipality's lien shall not apply to bills for service connected in a tenant's name after notice by the property owner to the municipality that the property is rental property.

(f) The municipality's lien shall not apply to bills for service connected in a tenant's name prior to the effective date of the ordinance imposing the lien. This subsection shall not apply to ordinances adopted prior to the effective date of this Act.

(g) The municipality's lien shall be perfected by recording in the real property records of the county where the property is located a notice of lien containing a legal description of the property and the utility's account number for the delinquent charges. The municipality's lien may include penalties, interest, and collection costs.

(h) The municipality's lien is inferior to a bona fide mortgage lien that is recorded before the recording of the municipality's lien in the real property records of the county where the property is located. Sec. 552.003. ACQUISITION OF EXISTING PUBLIC UTILITY; PAYMENT IN LIEU OF SCHOOL TAXES. (a) If, after May 8, 1943, a municipality acquires an existing public utility, the property of which is subject to taxation by a school district, and the municipality finances the purchase of the utility by issuing revenue bonds, the governing body of the municipality may expressly provide, in an indenture of trust, mortgage, or other lien instrument that evidences the obligation of the municipality for the purchase price, for an annual payment from the income of the utility of an amount equal to the average annual taxes assessed by the school district on the properties of the utility for the five years preceding the year in which the utility is

acquired.

(b) The school board trustees and the governing body of the municipality may agree on an annual payment of a sum in lieu of school taxes. The sum must be adequate and just under the circumstances of the case considering the school district's needs.

(c) The obligation of the municipality to make the payment in lieu of taxes is a proper item of municipal operating expenses that, with other operating expenses, is a first lien and charge against the income of the encumbered utility.

(d) The obligation of the municipality to make the payment in lieu of taxes as provided in the encumbrance agreement is an "expense or obligation" of the utility system as that term is used in statutes authorizing the acquisition of a public utility and the issuance of revenue bonds for the purchase of the utility. The obligation extends to and binds any municipality that purchases or otherwise acquires an existing public utility in accordance with the terms of the encumbrance agreement or mutual agreements as authorized under Subsections (a) and (b).

(e) The obligation of the municipality as fixed in the indenture or encumbrance is not impaired, affected, modified, or released by the release or discharge of the encumbrance, and, as long as the municipality owns and operates the public utility, it shall continue to pay to the school district on an annual basis from the revenues of the utility an amount equal to the average annual taxes assessed in behalf of the school district on the properties of the utility for the five years preceding the year in which the utility is acquired by the municipality. Alternatively, after the release or discharge of the encumbrance, the school board trustees and the governing body of the municipality may agree to provide for a payment in lieu of school taxes as provided by Subsection (b).

In connection with the acquisition, the district or corporation shall improve, enlarge, or extend the existing municipal facilities as provided by the contract.

(c) If the contract provides that the municipality assumes ownership of the project on completion of construction or at the time that all debt incurred by the district or corporation in the acquisition, construction, improvement, or extension of the project is paid in full, the municipality may make payments to the district or corporation for project services to part or all of the residents of the municipality. The contract may provide for purchase of the project by the municipality through periodic payments to the district or corporation in amounts that, together with the net income of the district or corporation, are sufficient to pay the principal of and interest on the bonds of the district or corporation as they become due. The contract may provide:

(1) that any payments due under this section are payable from and are secured by a pledge of a specified part of the revenues of the municipality, including revenues from municipal sales and use taxes;

(2) for the levying of a tax to make payments due under this section; or

(3) that the payments due under this section be made from a combination of revenues and taxes.

(d) The contract may provide that the district or corporation may use the streets, alleys, and other public ways and places of the municipality for project purposes for a period that ends at the time the indebtedness of the district or corporation is paid in full and the municipality acquires title to the project in accordance with this section.

(e) The contract may provide for the operation of the project by the municipality, and, if so authorized, the municipality may operate the project.

(f) A contract under this section must be authorized by a majority vote of the governing body of the municipality.

(g) This section does not authorize a water district or

corporation described by Subsection (b) to participate in a project that the water district or corporation is not authorized to participate in under other law.

Sec. 552.017. WATER SYSTEMS IN HOME-RULE MUNICIPALITIES. (a) A home-rule municipality may exercise the exclusive right to own, construct, and operate a water system for the use of the municipality and its residents. The municipality may regulate the system and may prescribe rates for the water furnished.

(b) The municipality may acquire by purchase, donation, or other means suitable land inside or outside the municipality for construction of the system, including any necessary rights-of-way.

(c) The municipality may take the necessary action to operate and maintain the system and to require water customers to pay charges imposed for the water furnished.

(d) The municipality may create, from revenue received from operating the water system, a separate fund dedicated solely to extending, operating, maintaining, repairing, and improving the water system. Sec. 552.018. MUNICIPAL CONTRACT WITH PRIVATE ENTITY. (a) A municipality that owns and operates its water distribution system may contract with an individual, firm, or corporation that operates without profit to make available for delivery to and use by the municipality all or part of the raw or treated water to be used for the municipal water distribution system. The service to be provided by the supplier may include the holding of water in reserve to serve needs of the municipality, and charges to the municipality under the contract may include compensation for this service.

(b) The contract may be for any duration to which the parties agree and may provide for renewal and extension.

(c) Contractual payments required solely from municipal water system revenue are an operating expense of that system. The municipality shall set its rates and charges to users of the municipal water system at a level sufficient to pay the maintenance and operating expenses of that system as provided by Section 1502.057, Government Code, and to provide for payment of principal of and interest on any revenue bonds of the municipality payable from water revenue.

(d) If a contract with a term of more than one year obligates the municipality to pay the consideration from tax revenue, involves the leasing to the supplier of a major part of an existing water production or supply facility belonging to the municipality or involves the right to operate a major part of such a facility, or restricts the municipality from obtaining water from another supplier, the contract is not effective unless approved or authorized at an election on the question.

(e) If Subsection (d) is not applicable, an election is not required. The governing body of the municipality may, however, order an election on the question before approving the contract.

(f) An election under this section shall be held to the extent practicable in the same manner as an election for the issuance of municipal bonds under Chapter 1251, Government Code.

(a) A municipality may contract with a water improvement district or water control and improvement district created under Article XVI, Section 59, of the Texas Constitution for the supplying of water to the municipality. The governing body of the municipality and the board of directors of the district may provide for any duration for the contract that does not exceed 30 years, except that they may provide for the contract to

continue in effect until the repayment of all warrants, notes, or bonds issued by the district to acquire facilities necessary or convenient for the district to supply water to the municipality.

(b) The municipality shall pay for water supplied under the contract from water system revenues of the municipality. Payment may be secured by an irrevocable pledge of and a first lien on those revenues. The district may not demand payment from tax revenue.

(c) A contract under this section is not binding until approved by a majority of the qualified voters of the municipality who vote on the question at an election held for the purpose. The governing body of the municipality may order the election. Notice of the election must be published once each week for two consecutive weeks in a newspaper of general circulation published in the municipality, with the first publication occurring before the 10th day before the date of the election. If such a newspaper is not published in the municipality, notice of the election must be posted at each election precinct in the municipality and at the city hall. The notice need not set out the full text of the contract or detail its provisions. During the 10-day period preceding the date of the election, the proposed contract shall be on file at the office of the municipal secretary and available for public inspection. If the election results in approval of the contract, the contract takes effect immediately; otherwise the contract is ineffective.

(d) As is necessary or convenient to supply water under a contract made under this section, a district may:

(1) construct or otherwise acquire and equip canals, reservoirs, basins, pipelines, conduits, filtration and aeration plants, and other equipment and supplies; and

(2) acquire property by purchase, eminent domain, or other means.

(e) A contracting district may issue warrants, notes, or bonds for the acquisition of facilities necessary or convenient for supplying water under the contract. The district may secure those evidences of indebtedness by a pledge of revenues to be derived under the contract under this section. With voter approval, the district may issue bonds for this purpose secured by taxes or a combination of taxes and contract revenues.

Sec. 552.020. CONTRACT WITH WATER DISTRICT. (a) In this section, "water district" means a district or authority created under Article XVI, Section 59, of the Texas Constitution.

(b) A municipality and a water district by contract may provide for the district to supply water to the municipality. By contract, the municipality and district may also provide for:

(1) the lease of the municipality's water production, water supply, and water supply facilities to the district;

(2) the district to operate the municipality's water production, water supply, and water supply facilities; or

(3) the municipality to operate the district's water production, water supply, and water supply facilities.

(c) A contract under this section may prohibit the municipality from obtaining water from sources other than the district, subject to any exceptions that the contract may provide.

(d) The contract may be on any terms and for any duration to which the parties agree and may provide that it continues in effect as long as any bonds of the district specified in the contract, including bonds issued to refund them, remain unpaid.

(e) A contract under this section is subject to the district's statutory or contractual duty to periodically revise the rate charged for water sold or services rendered by the district to the municipality under the contract so that the net revenues of the district will be sufficient to allow the district to pay its operation and maintenance expenses and the principal of and interest on the bonds secured by the contract to the extent provided by the resolution authorizing the bonds. Payments by the municipality under the contract are an operating expense of the municipal water system.

(f) A municipality may not contract under this section without first obtaining the approval of a majority of the qualified voters of the municipality who vote on the question at an election held for the purpose. The governing body of the municipality shall order the election. The governing body may submit to the voters the question of authorizing the municipality to make a water supply contract, a lease and water supply contract, or both. Both issues may be submitted as a single proposition. Notice of the election must be

published once each week for two consecutive weeks in a newspaper of general circulation published in the municipality, with the first publication occurring before the 14th day before the date of the election. If such a newspaper is not published in the municipality, notice of the election must be posted at the city hall and two other public places in the municipality. If the election result is favorable, the governing body shall enact an ordinance prescribing the form and substance of the lease or contract or both, as the case may be, and directing the mayor or mayor pro tempore to sign it. The ordinance may be enacted by a vote of a majority of the members of the governing body on one reading and at the same meeting at which it is introduced.

(b) A municipality with a population of more than 900,000 that owns and operates a municipal water system may:

(1) enter into a contract or joint enterprise with a

district for the conveyance, transportation, and distribution of water for or on behalf of the municipality; or

(2) contract to sell water to a district and repurchase all or part of the water at one or more designated points on the district's conveyance, transportation, and distribution system.

(c) A contract under Subsection (b) may provide that municipal payments to the district under the contract:

(1) are an operating expense of the municipal water system; or

(2) are payable from surplus or other funds of the municipal water system, from the revenues of specified municipal water sales contracts, or from other sources.

(d) If the contract under Subsection (b) obligates the municipality to pay any of the consideration from tax revenue, it must first be approved at an election ordered and conducted in the same manner as a bond election.

(e) A contract under Subsection (b) may be made for any period not to exceed 40 years and may provide that it continues in effect until payment of:

(1) all bonds issued by the district to finance conveyance, transportation, or distribution facilities, or the extension, enlargement, or improvement of those facilities; and

(2) any bonds issued to refund bonds described by Subdivision (1).

(f) A municipality covered by this section may contract for the sale of water to industrial and commercial customers or municipal corporations or political subdivisions as provided by ordinance. A contract under this subsection may not be for a term longer than 40 years.

(g) A municipality electing to make a contract under this section is governed solely by this section regardless of another statute, charter provision, or ordinance to the contrary.

Sec. 552.022. CONTRACTS WITH CERTAIN SPECIAL DISTRICTS. (a)

In this section, "special district" means a district that derives its powers from Article XVI, Section 59, of the Texas Constitution and that has statutory authority to contract with municipalities for the transportation and disposal of sewage.

(b) A municipality located in whole or in part in a county containing a special district, and acting under an ordinance enacted by its governing body, may enter into a contract with the district that may provide:

(1) that the district will make available to the municipality and provide sewage transportation, sewage treatment and disposal services, or any one or more of those services;

(2) for the provision of standby service; or

(3) for use by the district of sewage transportation, treatment, and disposal facilities owned by the municipality.

(c) The contract may be on terms and for a duration agreeable to the parties and may provide that it continue in effect until payment of:

(1) bonds issued by the district and specified in the contract; and

(2) any bonds issued to refund bonds described by Subdivision (1).

(d) The municipality is entitled to continued performance of services covered by the contract after the amortization of the district's investment in the facilities during the useful life of the facilities on payment of charges reduced to take into account the amortization.

(e) Except as provided by Subsection (f), revenue received by a special district from a municipality under a contract made under this section may be used only for:

(1) payment of principal of and interest on, and providing reserve for, bonds issued by the district to finance the facilities covered by the contract; and

(2) operating and maintenance expenses related to the contract, including legal, administrative, and management supervision fees and expenses.

(f) The contract may provide that a designated part of any surplus accumulated for the benefit of the municipality may be spent by the district to enlarge or improve facilities of the district used to serve the municipality.

(g) Payments by a municipality to a district shall be made from

revenues of the municipality's water system, sanitary sewer system, or both of those systems, or of the municipality's combined water and sanitary sewer system, as specified in the contract. Those payments are an operating expense of the system whose revenues are to be so applied. Except as provided by Subsection (h), neither the district nor a holder of the bonds of the district may demand payment of the municipality's obligations out of funds raised or to be raised by taxation.

(h) A municipality may pledge its taxing power in a contract made under this section if a majority of the qualified voters of the municipality who vote on the question at an election vote in favor of the proposed contract and the levy of property taxes to pay the municipality's obligations to the authority under the contract. The election shall be conducted in substantially the same manner as a municipal bond election held under Chapter 1251, Government Code. If the voters approve the contract and tax levy:

(1) the municipal governing body shall enact an ordinance prescribing the form and substance of the contract and directing the proper officers of the municipality to sign it; and

(2) once the contract has been executed, the municipality's obligations to the authority under the contract are an obligation of the municipality's taxing power, but may be paid, as provided by the contract, from taxes and revenues from which payments are required by Subsection (g).

(i) A municipality that has executed a contract under this section that is payable in whole or in part from revenue of the municipality's water or sanitary sewer system, or both of those systems, or the municipality's combined water and sewer system shall set and periodically adjust rates charged to users so that at all times that revenue is sufficient to pay:

(1) the expenses of operating and maintaining each system in accordance with current standards and requirements for preventing stream pollution;

(2) obligations of the municipality under the contract;
and

(3) all obligations of the municipality relating to revenue bonds issued from the system before or after execution of the contract under this section.

(j) The contract may require the use of consulting engineers and financial experts to advise the municipality as to when service

rates are to be adjusted.

(k) A district may render services concurrently to more than one municipality through construction and operation of a plant serving multiple municipalities, with the cost for the services to be allocated among the participating municipalities as provided by one or more contracts made under this section. All the compensation to be received by and all the security pledged to the district by all municipalities is available to the authority to secure bonds issued to provide necessary construction funds.

Sec. 552.023. CONTRACT BETWEEN MUNICIPALITY AND TRINITY RIVER AUTHORITY. (a) In this section, "sewage disposal services" includes sewage transportation, treatment, and disposal.

(b) A municipality that is located in whole or in part inside the boundaries of the Trinity River Authority or located in whole or in part in the watershed of the Trinity River may, by ordinance, contract with the authority for the authority to provide the municipality with sewage disposal services. The contract may contain a provision for standby service. The contract may be made on terms and for a duration agreeable to the parties and may provide that it will continue in effect as long as specified bonds of the authority, including refunding bonds, remain unpaid. The municipality is entitled to the continued performance of services covered by the contract after amortization of the authority's investment in facilities during the useful life of the facilities, on payment of charges reduced to take the amortization into account.

(c) Except as provided by Subsection (d), revenue received by the authority from a municipality under a contract made under this section may be used only for:

(1) payment of principal of and interest on, and providing reserves for, bonds issued by the authority to finance facilities for sewage disposal services; and

(2) operation and maintenance expenses related to the

contract, including legal, administrative, and management supervision fees and expenses.

(d) The authority and a municipality may provide in the contract that a designated part of any surplus revenue accumulated for the benefit of the municipality may be spent by the authority to enlarge or improve facilities of the authority used especially to serve that municipality.

(e) The authority becomes owner of sewage accepted by it for transportation and treatment and is solely responsible for the proper treatment and disposal of the sewage and the effluent. A contracting municipality is immune from liability for any improper treatment or disposal of the sewage or effluent. A municipality is not entitled to credit of any type, either in the exchange of water, money, or other consideration, for any effluent delivered to the authority. Such an exchange or sale may not be made a condition to any contract under this section.

(f) Payments by a municipality under a contract shall be made from revenues of the municipality's water system, sanitary sewer system, or both of those systems, or of the municipality's combined water and sanitary sewer system, as specified in the contract. Those payments are an operating expense of the system whose revenues are pledged under the contract. Except as provided by Subsection (h), neither the authority nor a holder of bonds of the authority may demand payment of the municipality's obligations out of funds raised or to be raised by taxation.

(g) If at the time it executes a contract under this section a municipality has outstanding revenue bonds secured by a pledge of the net revenue from a combined water and sanitary sewer system plus the net revenue from the municipality's gas distribution or electric power system, that portion of the payments made by the municipality to the authority and used by the authority for debt service on bonds of the authority may be treated by the municipality for its accounting purposes as a capital expenditure if:

(1) revenue from the municipality's gas or electric system, as the case may be, is adequate to satisfy the requirements of the ordinance or ordinances authorizing the outstanding revenue bonds and similarly secured bonds that may later be authorized, regarding the provision of funds for operation, maintenance, and debt service; and

(2) revenue from the municipality's sanitary sewer system and, if encumbered under the contract, from the municipality's water

system, are sufficient to meet the requirements of the contract with the authority.

(h) A municipality may pledge its taxing power in a contract made under this section if a majority of the qualified voters of the municipality who vote on the question at an election vote in favor of the proposed contract and the levy of property taxes to pay the municipality's obligations to the authority under the contract. The election shall be conducted in substantially the same manner as a municipal bond election held under Chapter 1251, Government Code. If the voters approve the contract and tax levy:

(1) the municipal governing body shall enact an ordinance prescribing the form and substance of the contract and directing the proper officers of the municipality to sign it; and

(2) once the contract has been executed, the municipality's obligations to the authority under the contract are an obligation of the municipality's taxing power, but may be paid as provided by the contract, from taxes and revenues from which payments are required by Subsection (f).

(i) A municipality that has executed a contract under this section that is payable in whole or in part from revenue of the municipality's water or sewer system, or both of those systems, or the municipality's or combined water and sewer system shall set and periodically adjust rates charged to users so that at all times that revenue is sufficient to pay:

(1) the expenses of operating and maintaining the system in accordance with current standards and requirements for preventing stream pollution;

(2) obligations of the municipality under the contract;
and

(3) all obligations of the municipality relating to revenue bonds issued for the system before or after execution of the contract under this section.

(j) A contract under this section may require the use of consulting engineers and financial experts to advise the municipality as to when service rates are to be adjusted.

(k) The authority may render services concurrently to more than one municipality through construction and operation of a plant serving multiple municipalities, with the cost for the services to be allocated among the participating municipalities as provided by one or more contracts made under this section. All the compensation to

be received by and all the security pledged to the authority by all municipalities is available to the authority to secure bonds issued to provide necessary construction funds. A contract used by the authority to secure bonds to finance its plant and facilities must be submitted by the authority to the attorney general for examination. If the attorney general approves the contract and bonds, the contract is incontestable.

(2) may not be made payable from ad valorem taxes.

(e) A contract entered into under this section may:

(1) be in the form and on the terms considered appropriate by the governing body of the municipality;

(2) be for the term approved by the governing body of the municipality and contain an option to renew or extend the term;

(3) provide for the design, construction, and financing of the reclaimed water project by the person with whom the municipality contracts for the development of the reclaimed water project; and

(4) provide for the provision of reclaimed water for industrial purposes at specified rates for the term approved by the governing body of the municipality as part of the consideration for the acquisition of the reclaimed water project by the municipality.

(f) If a contract entered into under this section provides for the design, construction, and financing of the reclaimed water project by the person with whom the municipality contracts:

(1) a contract procurement or delivery requirement applicable to the municipality does not apply to the reclaimed water project; and

Sec. 552.044. DEFINITIONS. In this subchapter:

(1)(A) "Benefitted property" means an improved lot or tract to which drainage service is made available under this subchapter.

(B) "Benefitted property," in a municipality with a population of more than 1.18 million located primarily in a county with a population of 2 million or more which is operating a drainage utility system under this chapter, means a lot or tract, but does not include land appraised for agricultural use, to which drainage service is made available under this subchapter and which discharges into a creek, river, slough, culvert, or other channel that is part of the municipality's drainage utility system. Sections 552.053(c)(2) and (c)(3) do not apply to a municipality described in this subdivision.

(2) "Cost of service" as applied to a drainage system service to any benefitted property means:

(A) the prorated cost of the acquisition, whether by eminent domain or otherwise, of land, rights-of-way, options to purchase land, easements, and interests in land relating to structures, equipment, and facilities used in draining the benefitted property;

(B) the prorated cost of the acquisition, construction, repair, and maintenance of structures, equipment, and facilities used in draining the benefitted property;

(C) the prorated cost of architectural, engineering, legal, and related services, plans and specifications, studies, surveys, estimates of cost and of revenue, and all other expenses necessary or incident to planning, providing, or determining the feasibility and practicability of structures, equipment, and facilities used in draining the benefitted property;

(D) the prorated cost of all machinery, equipment, furniture, and facilities necessary or incident to the provision and operation of draining the benefitted property;

(E) the prorated cost of funding and financing charges and interest arising from construction projects and the start-up cost of a drainage facility used in draining the benefitted property;

(F) the prorated cost of debt service and reserve requirements of structures, equipment, and facilities provided by revenue bonds or other drainage revenue-pledge securities or obligations issued by the municipality; and

(G) the administrative costs of a drainage utility system.

(3) "Drainage" means bridges, catch basins, channels, conduits, creeks, culverts, detention ponds, ditches, draws, flumes, pipes, pumps, sloughs, treatment works, and appurtenances to those items, whether natural or artificial, or using force or gravity, that are used to draw off surface water from land, carry the water away, collect, store, or treat the water, or divert the water into natural or artificial watercourses.

(4) "Drainage charge" means:

(A) the levy imposed to recover the cost of the service of the municipality in furnishing drainage for any benefitted property; and

(B) if specifically provided by the governing body of the municipality by ordinance, an amount made in contribution to funding of future drainage system construction by the municipality.

(5) "Drainage system" means the drainage owned or controlled in whole or in part by the municipality and dedicated to the service of benefitted property, including provisions for additions to the system.

(6) "Facilities" means the property, either real, personal, or mixed, that is used in providing drainage and included in the system.

(7) "Public utility" means a drainage service that is regularly provided by the municipality through municipal property dedicated to that service to the users of benefitted property within the service area and that is based on:

(A) an established schedule of charges;

(B) the use of the police power to implement the service; and

(C) nondiscriminatory, reasonable, and equitable terms as declared under this subchapter.

(8) "Service area" means the municipal boundaries and any

other land areas outside the municipal boundaries which, as a result of topography or hydraulics, contribute overland flow into the watersheds served by the drainage system of a municipality; provided, however, that in no event may a service area extend farther than the boundaries of a municipality's current extraterritorial jurisdiction, nor, except as provided by Section 552.0451, may a service area of one municipality extend into the boundaries of another municipality. The service area is to be established in the ordinance establishing the drainage utility. Provided, that no municipality shall extend a service area outside of its municipal boundaries except:

(A) a municipality of more than 500,000 population located within 50 miles of an international border;

(B) a municipality all or part of which is located over or within the Edwards Aquifer recharge zone or the Edwards Aquifer transition zone, as designated by the Texas Natural Resource Conservation Commission; or

(C) as provided by Section 552.0451.

(9) "User" means the person or entity who owns or occupies a benefitted property.

(10) "Improved lot or tract" means a lot or tract that has a structure or other improvement on it that causes an impervious coverage of the soil under the structure or improvement.

Sec. 552.045. ADOPTION OF SYSTEM; RULES. (a) Subject to the requirements in Subsections (b) and (c), the governing body of the municipality, by a majority vote of its entire membership, may adopt this subchapter by an ordinance that declares the adoption and that declares the drainage of the municipality to be a public utility.

(b) Before adopting the ordinance, the governing body must find that:

(1) the municipality will establish a schedule of drainage charges against all real property in the proposed service area subject to charges under this subchapter;

(2) the municipality will provide drainage for all real property in the proposed service area on payment of drainage charges, except real property exempted under this subchapter; and

(3) the municipality will offer drainage service on nondiscriminatory, reasonable, and equitable terms.

(c) Before adopting the ordinance, the governing body must publish a notice in a newspaper of general circulation in the municipality stating the time and place of a public hearing to consider the proposed ordinance. The proposed ordinance must be published in full in the notice. The governing body shall publish the notice three times before the date of the hearing. The first publication must occur on or before the 30th day before the date of the hearing.

(d) After passage of the ordinance adopting this subchapter, the municipality may levy a schedule of drainage charges. The municipality must hold a public hearing on the charges before levying the charges. The municipality must give notice of the hearing in the manner provided by Subsection (c). The proposed schedule of drainage

charges, as originally adopted or as revised, must be published in the notice.

(e) The municipality by ordinance may adopt and enforce rules as it considers appropriate to operate the drainage utility system. Provided, however, that the prohibitions contained in Section 212.003(a) of the Local Government Code relating to quasi-zoning and other land use regulations in the extraterritorial jurisdiction of a municipality shall apply to any rule or ordinance adopted or enacted by the municipality under this Act, except that rates may be established using impervious cover measurements relating to land use and building size.

Sec. 552.0451. EXTENSION OF SERVICE AREA BY CERTAIN MUNICIPALITIES. (a) A municipality with a population of more than 900,000 located in one or more counties with a population of less than 1.5 million as of the 1990 federal census may extend its service area:

(1) into the boundaries of another municipality if:

(A) before the extension water from the municipality to which the service area is to be extended regularly drains into the drainage system of the municipality extending its service area; and

(B) the extension is provided for by an interlocal agreement between the municipalities; or

(2) beyond its municipal boundaries into an unincorporated area of its extraterritorial jurisdiction if:

(A) before the extension water from the area to which the service area is to be extended regularly drains into the drainage system of the municipality extending its service area; and

(B) the extension is provided for by an interlocal agreement between the municipality extending its service area and the county containing the area to which the service area is to be extended.

(b) An interlocal agreement under Subsection (a) may:

(1) contain provisions necessary for the operation of a drainage system within the area to which the service area is extended; and

(2) provide for charges for treatment of drainage water and methods of assessment of the charges to an owner of a lot or tract of benefitted property in the area to which the service area is extended.

(c) Charges and methods of assessment agreed to under Subsection (b)(2) must comply with Section 552.047.

Sec. 552.047. DRAINAGE CHARGES. (a) The governing body of the municipality may charge a lot or tract of benefitted property for drainage service on any basis other than the value of the property, but the basis must be directly related to drainage and the terms of the levy, and any classification of the benefitted properties in the municipality must be nondiscriminatory, equitable, and reasonable.

(b) In setting the schedule of charges for drainage service, the governing body must base its calculations on an inventory of the lots and tracts within the service area. The governing body may use approved tax plats and assessment rolls for that purpose. The

governing body may also consider the land use made of the benefitted property. The governing body may consider the size, in area, the number of water meters, and topography of a parcel of benefitted property, in assessing the drainage charge to the property.

(c) The governing body may fix rates for drainage charges in advance and may change, adjust, and readjust the rates and charges for drainage service from time to time. The rates must be equitable for similar services in all areas of the service area.

(d) Unless a person's lot or tract is exempted under this subchapter, the person may not use the drainage system for the lot or tract unless the person pays the full, established, drainage charge.

(e) Users residing within the established service area, but outside the municipality's boundaries, may appeal rates established for drainage charges under Section 13.043(b), Water Code.

Sec. 552.048. BILLINGS; DEPOSIT NOT REQUIRED. (a) The municipality may bill drainage charges, identified separately, with the municipality's other public utility billings. Any delinquent billings may be collected on the benefitted property under the procedure prescribed by this subchapter.

(b) The municipality may not require a deposit for drainage service as a precondition to accepting surface flow in the drainage utility system.

Sec. 552.049. SEGREGATION OF INCOME. The income of a drainage utility system must be segregated and completely identifiable in municipal accounts. If drainage charges are solely for the cost of service, the municipality may transfer the charges in whole or in part to the municipal general fund, except for any part collected outside municipal boundaries and except for any part pledged to retire any outstanding indebtedness or obligation incurred, or as a reserve for future construction, repair, or maintenance of the drainage system. If the governing body has levied, in the drainage charge, an amount in contribution to the funding of future system improvements, including replacement, new construction, or extension, that amount is not transferable to the general fund.

Sec. 552.050. DELINQUENT CHARGES. (a) Any charge due hereunder which is not paid when due may be recovered in an action at law by the municipality. In addition to any other remedies or penalties provided at law or in this subchapter, failure of a user of the municipal utilities within the service area to pay the charges promptly when due shall subject such user to discontinuance of any utility services provided by the municipality, and municipalities are hereby empowered to enforce this provision against delinquent users. The employees of the utility established in accordance with this subchapter shall have access, at all reasonable times, to any benefitted properties served by the drainage utility for inspection or repair or for the enforcement of the provisions of this subchapter.

Sec. 552.051. DRAINAGE REVENUE BONDS. By majority vote of the governing body, the municipality may issue drainage revenue bonds. The municipality may use Chapter 1201, Government Code. In addition, the municipality may pledge income received by contracts for the provision of drainage to other governments or governmental subdivisions located inside or outside the service area.

Sec. 552.052. DISCONTINUATION OF DRAINAGE SYSTEM. (a) If, after at least five years of substantially continuous operation of a municipal drainage system, the governing body of the municipality determines that the system should be discontinued, that the powers under this subchapter should be revoked, and that provision for municipal drainage should be made by other revenues, the governing body may adopt an ordinance to that effect after providing notice and a public hearing as provided by Section 552.045.

(b) If the municipality discontinues a system under Subsection (a), it may not adopt a system under this subchapter for at least five years after the discontinuation.

(c) A discontinuation does not affect a written obligation incurred by the municipality for funding or for the purchase of equipment, materials, or labor for the drainage system that is not then fully paid or otherwise discharged.

(d) A claim for damages based on an alleged failure of the drainage system that is filed with the municipality before the adoption of the ordinance discontinuing the drainage system is not abated by the discontinuation.

(c) The governing body may act under this subchapter through resolution, motion, order, or ordinance unless an ordinance is specifically required. The governing body may adopt, by resolution or ordinance, any rules appropriate to the exercise of its powers under this subchapter, including rules relating to notice and hearing under this subchapter.

(d) The governing body may not assess a special tax or assessment against a railway, street railway, or interurban right-of-way to defray a portion of the cost of the improvements to the municipal water or sanitary sewer system.

(e) This subchapter does not affect the law of this state relating to the duty of a municipality to furnish water or sewer service in its proprietary capacity.

Sec. 552.064. DECLARATION; COSTS; ESTIMATED ASSESSMENT. (a) In the ordinance or resolution that declares the need for the

improvements, the municipality:

(1) must state the general nature and extent of the improvements; and

(2) may direct that detailed plans, specifications, and cost estimates for the improvements be prepared and submitted to the governing body.

(b) The cost of the improvements may be paid wholly by the municipality or partly by the municipality and partly by the benefitted property and its owners. If any part of the cost is to be paid by the benefitted property and its owners, the governing body of the municipality must prepare an estimate of the cost of the improvements. The governing body must prepare the estimate before any improvements are constructed, either before or after bids for the proposed construction are received by the municipality, but before the hearing required under this subchapter is held.

Sec. 552.065. ASSESSMENT PROVISIONS. (a) By ordinance, the governing body of the municipality may:

(1) assess not more than nine-tenths of the estimated cost of improvements against the benefitted property and the owners of that property;

(2) provide the time, terms, and conditions of payment and defaults of the assessments; and

(3) prescribe the interest rate on the assessment, not to exceed 10 percent a year.

(b) The governing body may issue in the name of the municipality assignable certificates in evidence of assessments levied under this section that declare the lien on the property and the liability of the owners whether named correctly or not. The governing body may set the terms and conditions of those certificates. If a certificate substantially states that the required proceeding relating to improvements referred to in the certificate has been held in compliance with law and that all the prerequisites to the fixing of an assessment lien against the

property described in the certificate and the personal liability of the owner of the property have been performed, the certificate is prima facie evidence of all the matters recited in the certificate, and further proof is not required. In a suit on an assessment or reassessment in evidence of which a certificate may be issued under this subchapter, it is sufficient to allege the substance of the recitals in the certificate and that those recitals are true. Further allegations with reference to the proceedings relating to the assessment or reassessment are not necessary.

(c) An assessment against benefitted property under this section is collectable with interest, cost of collection, and reasonable attorney's fees. The assessment is a first and prior lien on the assessed property and the lien takes effect on the date that a notice of proposed improvements is made under Section 552.067. The lien is superior to any other lien or claim except a state, county, school district, or municipal property tax lien. The assessment is a personal liability and charge against the owners of the assessed property on the date on which the lien takes effect, whether or not the owners are named in a notice, instrument, certificate, or ordinance provided for under this subchapter.

(d) The municipality may make assessments against several parcels of benefitted property in one assessment if the parcels are owned by the same person. The municipality may jointly assess benefitted property owned jointly by one or more persons.

Sec. 552.066. APPORTIONMENT OF ASSESSMENTS. (a) Except as provided by Subsection (c), the municipality shall separately compute the cost of the water or sewer improvements and shall apportion the part of the cost of those improvements that may be assessed against the benefitted property and the owners of the property, among the parcels of the benefitted property and the owners, in accordance with

the front foot rule.

(b) Under the front foot rule, the governing body of the municipality shall assess each parcel of benefitted property according to the number of lineal feet of the parcel that abuts on a public street, irrespective of the location of improvements constructed under this subchapter relating to that parcel if the improvements provide water or sewer service to the assessed parcel. The governing body shall assess a corner lot based on the shorter side of the lot that abuts on a public street.

(c) If, in the opinion of the governing body, application of that rule would result in injustice or inequality in particular cases, the governing body shall apportion and assess those costs in the proportion it considers just and equitable, taking into account the special benefits in enhanced value to be received by those owners, and shall adjust the apportionment so as to produce a substantial equality of benefits received and burdens imposed.

Sec. 552.067. NOTICE OF PROPOSED IMPROVEMENTS; LIEN. (a) If the governing body of the municipality proposes to levy or assess any of the cost of improvements against the benefitted property as provided by Section 552.065, the governing body may file a notice, signed on behalf of the municipality by the municipal clerk, secretary, mayor, or other officer performing the duties of those officers, with the county clerk of the county in which the property is located. The notice must substantially show that the governing body has determined by order, directive, or otherwise that water or sewer system improvements are necessary, identify the required improvements by location or otherwise, state that a portion of the cost of the improvements is to be or has been specially assessed as a lien against the benefitted property, and describe that property. One notice may contain any number of systems or improvements.

(b) It is not necessary that a notice under this section give details or be sworn to or acknowledged. The governing body may file the notice at any time. The county clerk with whom the notice is

filed shall record the notice in the records of mortgages or deeds of trust and shall index it in the name of the municipality and in the name or other designation of the water or sewer system to which the notice relates.

Sec. 552.068. EXEMPTIONS; PERSONAL LIABILITY FOR ASSESSMENT.

(a) All property, including church and school property, is subject to a tax or assessment authorized for local improvements under this subchapter. However, this subchapter does not authorize the municipality or its governing body to fix a lien against any interest in property that is exempt from the lien of a special assessment for local improvements under the constitution of this state at the time the lien takes effect. The owner of such a property is personally liable for any assessment made in connection with the improvement, and the municipality may refuse water or sewer service to the owner until the owner pays the municipality the assessment made against the property or an amount equal to the assessment made against private property of equal or comparable size. The fact that an ordered improvement is omitted as to property, an interest in which is exempt, does not invalidate the lien or liability of assessment made against any other property.

(b) The municipality may enforce a lien created against any property and the personal liability of the owner of the property by an action in a court having jurisdiction or by sale of the assessed property in the manner provided by law or charter in effect in that municipality for the sale of property for municipal property taxes.

(c) As an aid to enforcement of the liability imposed by the assessment, the municipality may refuse to connect or may disconnect water or sewer service to a parcel of benefitted property during the period in which there is a default in the payment of any amount assessed under this subchapter against the parcel or its owner.

Sec. 552.069. NOTICE AND HEARING REQUIREMENTS; APPEAL. (a)
The municipality may not make an assessment under this subchapter
against any benefitted property until it has given notice and
provided an opportunity for a hearing as provided by this section.
The municipality may not make an assessment against any benefitted
property or the owners of the property in excess of the enhancement
of value of the property caused by the improvements as determined by
the hearing.

(b) The municipality shall deliver the notice required under
this section in writing by mailing the notice to the address of the
owner of the property or to the person who last paid taxes on the
property as determined by the municipal tax rolls. The municipality
must mail the notice before the 10th day before the date set for the
hearing and must publish the notice at least three times in a
newspaper of general circulation in the municipality in which the
special assessment tax is to be imposed. The municipality shall
publish the first notice before the 10th day before the date set for
the hearing. Proof of the mailing and publication constitutes proof
that all the notice requirements of this section have been met.

(c) A notice is sufficient, valid, and binding on all persons
who own or claim benefitted property or an interest in that property
if the notice:

(1) generally describes the nature of the improvements for
which the municipality proposes to make assessments and to which the
notice relates;

(2) describes the water or sanitary sewer system to be
improved or the portions of that system to which the improvements
relate;

(3) states the estimated amount per front foot proposed to
be assessed against benefitted property or the owners of the
property;

(4) describes the property benefitted by each system or
portion of system with reference to which the required hearing is to
be held;

(5) states the estimated total cost of the improvements on each system or portion of a system; and

(6) states the time and place of the hearing.

(d) The governing body of the municipality shall conduct the hearing. Each person who owns or claims benefitted property or an interest in that property is entitled to be heard on any matter to which a hearing is a constitutional prerequisite to the validity of an assessment authorized by this subchapter. Such a person may contest the amount of the proposed assessment, the lien and liability for the lien, the special benefits claimed for the property to be improved and its owner by means of improvements for which assessments are to be levied, and the accuracy, sufficiency, regularity, and validity of the proceedings and any contract in connection with the improvements and proposed assessments. The governing body may correct any deficiencies and may determine the amounts of the assessments and other necessary matters. By ordinance, the municipality may close the hearing and may levy the assessment for improvements before, during, or after the construction of those improvements. The municipality may not make any part of such an assessment mature before the acceptance by the municipality of the improvements for which the assessment is levied.

(e) A person who owns or claims assessed property or an interest in that property may appeal the assessment based on the amount of the assessment; on any inaccuracy, irregularity, invalidity, or insufficiency of the proceedings or contract relating to the assessment; or on anything that is not within the discretion of the governing body of the municipality, by bringing suit in a court of competent jurisdiction within 15 days after the date the assessment is levied. A claimant who does not bring suit within that time waives the right to contest any matter that might have been presented at the hearing and is barred and estopped from contesting the assessment or the proceedings and contract relating to the assessment in any manner. The only defense to an assessment in a suit brought to enforce the assessment is failure to publish notice as required by this section or that the assessment exceeds the amount of the estimate. The words or acts of any municipal officer or employee, including a member of the governing body, do not affect the force and effect of this subchapter, except for official actions of the governing body as shown in its written proceedings and records.

Sec. 552.070. CHANGE; ABANDONMENT. (a) Except as limited by this section, the governing body of the municipality may change plans, methods, contracts, or other proceedings relating to improvements.

(b) The governing body may not make a change that substantially affects the nature or quality of the improvements unless the governing body, by a two-thirds vote, determines that it is impractical to proceed with the improvements as proposed.

(c) If a substantial change is made after a hearing has been ordered or held, a new cost estimate and a new hearing with proper notices is required unless the improvement is totally abandoned.

(d) A change in or an abandonment of improvements requires the consent of any person who has contracted with the municipality for the construction of the improvements.

(e) If improvements are abandoned, the municipality shall pass an ordinance that cancels any assessments already levied for the improvements and that cancels any other proceedings relating to those improvements.

Sec. 552.071. CORRECTIONS; REASSESSMENTS. (a) If an assessment is determined to be invalid or unenforceable, the governing body of the municipality may correct any deficiency in the proceedings relating to the assessment or any mistake or irregularity in connection with the assessment. The governing body may make and levy reassessments after a notice and hearing that comply as nearly as possible with the requirements for the original notice and hearing, and subject to the provisions relating to special benefits. A recital in a certificate issued as evidence of a reassessment has

the same force as a recital in a certificate related to an original assessment.

(b) A person who owns or claims an interest in property against which a reassessment is levied has the same right of appeal provided under this subchapter for an original assessment. If the person does not appeal within 15 days after the date of the hearing relating to the reassessment, the provisions of Section 552.069 relating to waiver, bar, estoppel, and defense apply.

Sec. 552.072. JOINT PROCEEDINGS. The municipality may make the improvements and assessments provided under this subchapter in conjunction with the street improvements and assessments provided for in Chapter 313, Transportation Code, through a joint proceeding. If a joint proceeding is conducted, only one hearing is required, and the procedure required under this subchapter controls. The municipality may issue a single assessment certificate against a parcel of benefitted property and its owner in evidence of the total assessment made for all improvements made under this subchapter, including street improvements made in a joint proceeding, if the amount assessed for each class of improvements is set out separately and distinctly in the ordinance under which the assessment is made.

Sec. 552.073. RESTRICTIONS IN CERTAIN COUNTIES. (a) In this section, "subdivided or platted property" means property that:

(1) has been platted under Chapter 212; or

(2) has been subdivided or platted by a map or plat that is filed for record in the office of any county clerk and that contains a dedication of the property for public use for a street or alley right-of-way or for a public utility easement.

(b) A municipality located in a county with a population of less than 700,000 may not make an assessment or other charge for the construction of improvements to a water or sewer system against any property or property owner, regardless of who initiates the request for the construction, unless the property is located in an area that has been subdivided or platted for at least the 10 years preceding the date of the assessment.

Sec. 552.074. AUTHORIZED INVESTMENT. A certificate of special assessment issued under this subchapter, including a certificate issued under a joint proceeding under Section 552.072, is a legal and authorized investment for a bank, savings bank, trust company, savings and loan association, insurance company, sinking fund of a municipality, county, school district, or other political subdivision of this state, and for all other public funds of this state or an agency of this state.

Sec. 552.075. HOME-RULE MUNICIPALITY. A home-rule municipality to which this subchapter applies may adopt plans and specifications for improvements as provided by this subchapter and may pay in cash to the contractor who is the successful bidder that part of the cost assessed against the owner and the benefitted property. The

municipality may reimburse itself by levying an assessment against the benefitted property and its owner after notice and hearing as provided by this subchapter. The municipality may reimburse itself up to the amount of the enhancement in value represented by the benefits and as permitted under this subchapter and may issue assignable certificates in favor of the municipality for the assessment. The certificates are enforceable in the manner provided by Section 552.065. The municipality may use its own forces to make the improvements if the work may be performed more expeditiously and economically in that manner.

SUBCHAPTER Z. MISCELLANEOUS PROVISIONS

Sec. 552.901. RELOCATION OR REPLACEMENT OF WATER OR SEWER LATERALS. (a) By ordinance, a municipality may contract for the relocation or replacement of a sanitation sewer lateral or water lateral that serves a residential structure on private property to connect the lateral to a new, renovated, or rebuilt sanitation main or water main constructed by the municipality. The municipality shall assess the cost of the relocation or replacement of the lateral against the property on which the lateral is located. A lien attaches to the property for the cost of the relocation or replacement.

(b) Before a municipality contracts under Subsection (a), the municipality must obtain the property owner's written consent to the contract, to the relocation or replacement of the sewer lateral or water lateral, and to the assessment. The written consent must state that the person giving the consent is the property owner or the authorized representative of the property owner, must state the owner's address, and must state that:

- (1) the consent is given freely;
- (2) the owner understands that as a result of the

assessment a lien attaches to the property for the total cost of the relocation or replacement;

(3) the municipality will not pay any part of the relocation or replacement cost; and

(4) the owner has five years from the date the work is completed to repay the cost to the municipality.

(c) Before the contract for the work is made but after the municipality has received bids for the work, the municipality must give notice to the property owner. The notice must state the bid price accepted by the municipality for the completion of the work and that the contract price may be increased by not more than 10 percent because of changes without the written consent of the owner. The notice shall be given to the owner by personal delivery, or by depositing the notice in the United States mail, postage prepaid, addressed to the owner at the address in the owner's written consent.

(d) The municipality shall contract for the performance of the work in accordance with the law applicable to public improvements before work begins on the relocation or replacement of a lateral and after the municipality files the written consent of the property owner with the municipal clerk or municipal secretary. The contract may be changed as necessary for the successful completion of the work, but the contract price may not be increased by more than 10 percent because of those changes without the written consent of the owner as provided by Subsection (c).

(e) Unless the owner waives the right to reject the contract as provided by Subsection (f) on or before the 45th day after the date the notice is mailed or delivered, the owner may exercise that right by notifying the municipal clerk or municipal secretary of the withdrawal of consent. If the owner fails to withdraw consent during the 45-day period, the municipality may contract for the performance of the work, the work may proceed, and the assessment may be made without further consent by the owner. After the expiration of the 45-day period, the owner may not withdraw the consent.

(f) The owner may waive the right to reject the contract by filing a sworn affidavit to that effect with the municipal clerk or municipal secretary. After the affidavit is filed, the municipality may contract for the performance of the work, the work may proceed, and the assessment may be made without further consent by the owner.

(g) On receipt by the municipality of a certificate from the contractor certifying that all work has been completed in accordance

with the contract, and on a finding by the municipality that the work has been properly completed in accordance with the applicable codes and ordinances of the municipality, the municipality may pay the contractor the cost of the completed work.

(h) When payment is made to the contractor, the municipality shall issue a certificate certifying that the work has been completed and that payment has been made under the contract. The municipality shall file the certificate with the county clerk of the county in which the property is located and shall deliver a copy of the certificate to the property owner.

(i) The property owner, within five years after the date of the issuance of the certificate under Subsection (h), must pay the municipality the amount that the municipality paid for the completed work as evidenced by the certificate, plus simple interest in an amount not to exceed 10 percent a year as set by the governing body of the municipality. On payment of the principal amount and accrued interest, the municipality shall issue a release of the assessment and lien. The release may be filed for record as provided by law.

(j) If the property owner does not pay the assessment during the five-year period, the municipality may enforce the lien on the property in the same manner in which it is authorized by law to enforce the lien for a paving or other assessment.

Sec. 552.902. OPERATION OF CERTAIN ELECTRIC LIGHT AND POWER SYSTEMS BY HOME-RULE MUNICIPALITIES. (a) If a home-rule municipality, whose charter authorizes it to furnish electric light and power service inside and outside the municipal boundaries, owned and operated a municipal electric system as of July 4, 1949, and on that date owned and operated a rural electric system as a unit separate from the municipal system, and if the governing body of the municipality set up a rural electric system as a separate system, the bonds, mortgages, warrants, or other evidences of indebtedness are obligations of the system which they benefitted. The obligations of one system do not apply to or affect the other system.

(b) Any issued obligation of a system is not a debt of the municipality but is only a charge on the properties of the system and may not be considered in determining the ability of the municipality to issue bonds for any purpose authorized by law.

(c) The expense of operation and maintenance of each system is a first lien and charge against the income of the system. Operation and maintenance expenses include salaries, labor, repairs, cost of electrical energy, interest, repairs or extensions necessary for efficient service, and other proper operation and maintenance expenses.

(d) The governing body of the municipality shall charge and collect for each service a rate sufficient to:

(1) pay operation and maintenance expenses, depreciation, replacement, improvement, and interest;

(2) pay the principal of and interest on obligations issued against each system separately; and

(3) maintain any reserves required by the ordinance authorizing the issuance of the obligations.

(e) None of the income of a system may be used to pay any other debt, expense, or operation until the secured indebtedness is finally paid.

(f) Each evidence of indebtedness issued by a municipality to which this section applies must contain the clause: "The holder of the instrument hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation." The evidence of indebtedness must be payable not more than 40 years from the date of the instrument and may bear interest at a rate not to exceed five percent a year. The instrument must be signed by the mayor and countersigned by the municipal secretary. Facsimile signatures of those officers may be printed on interest coupons attached to the instrument.

(g) A municipality to which this section applies is not required to submit an instrument issued against either of the systems to any public official of this state. The only approval required or authorized by this section is that of the governing body of the municipality. An obligation issued under this section is not contestable after issuance and delivery except for fraud and forgery.

(h) This section does not authorize a municipality to construct facilities or furnish electric power and energy to an area served with central station electric service as of July 4, 1949.

(i) An obligation issued under this section is exempt from state or local taxation.

(j) After a finding that a merger is in the best interests of its separately owned rural electric system and its municipal electric system, the governing body of a municipality to which this section applies may by ordinance order a merger of the systems. After the merger, all laws relating to the municipal electric system, including laws relating to authorization and issuance of bonds, apply to the merged system.

Sec. 552.903. AGREEMENT WITH CONSERVATION AND RECLAMATION DISTRICT. (a) A municipality may agree or contract with a conservation and reclamation district created under Article XVI, Section 59, of the Texas Constitution for the supply and purchase of hydroelectric power or energy. The agreement or contract shall be for a period and contain the terms and conditions agreed on by the parties. The agreement or contract is a valid and binding municipal obligation that is enforceable as provided by its terms.

(b) The agreement or contract may provide for the municipality to pay for the hydroelectric power or energy whether or not the power or energy is produced or delivered to the municipality. The agreement or contract may include provisions relating to acquiring, constructing, and equipping generation and transmission facilities to supply the power and energy, provisions relating to financing the costs of the generation and transmission facilities, and provisions that the agreement or contract continues in effect while any obligations specified in the agreement or contract, including refunding obligations, remain outstanding. The provisions shall be as specified in the agreement or contract.

(c) If provided in the agreement or contract, the amounts required to be paid by the municipality to the district under the agreement or contract are an operating expense of the electric system, or combined utility system of which the electric system is a part, in the manner provided for other operating and maintenance

expenses of the electric system or combined utility system as provided by Section 1502.056, Government Code.

(d) Notwithstanding any express or implied limitation on municipal power or purposes under any general or special law, charter provision, or ordinance, this section is authority for the performance of an agreement or contract entered into under this section.

Sec. 552.904. LEASE OF NATURAL GAS DISTRIBUTION SYSTEM BY CERTAIN MUNICIPALITIES. (a) A municipality that owns its natural gas distribution system and that has conducted an election before July 13, 1959, that resulted in a vote to sell the system may, by majority vote of the governing body, enter a contract to lease the system to any person. The municipality may also grant an option to the lessee or other person to purchase the system at a price specified or determined in the manner provided by the lease or option contract.

(b) If the municipality has any outstanding bonds that are payable from the revenues of the system, unless the municipality provides for the full payment of the bonds with interest to their maturities or to the date the bonds are to be redeemed before maturity, it may not enter a lease or option contract except under the conditions specified in the ordinance that authorized the bonds.

- (1) by ordinance regulate the rates and compensation charged the public by the municipality for utility service;
- (2) establish and operate a plant to manufacture, generate, or produce utility service; and
- (3) sell and distribute utility service to the public in the municipality's boundaries.

(c) In this section, "utility service" means the provision of water, sewer service, gas, electric energy, or a substance used for lighting, heat, or power.

Sec. 552.907. CONSTRUCTION OF WATER OR WASTEWATER IMPROVEMENTS TO PRESERVE WATER QUALITY AQUIFER. (a) This section applies only to territory located in a municipality or in the extraterritorial jurisdiction of a municipality and located over the recharge zone of an aquifer that provides all or part of the water supply of the municipality.

(b) To preserve the quality of the aquifer, the municipality or a person with whom the municipality contracts may:

- (1) construct a sanitation sewer lateral or water lateral that serves a residential structure on private property to connect the lateral to a new, renovated, or rebuilt sanitation main or water main constructed by or for the municipality; and
- (2) take any action necessary to remedy aquifer pollution problems caused by septic tanks or septic systems located on the

property, including filling in the tank or system or removing the tank or system.

(c) The municipality shall assess the cost of the water or wastewater improvements under Subsection (b)(1) or Subsections (b)(1) and (b)(2), as applicable, against the property on which the lateral is located. A lien attaches to the property for the cost of the improvements.

(d) Before a municipality acts under Subsection (b), the municipality must give notice to the property owner and obtain the property owner's written consent to the activity to be performed and to the amount of the assessment.

(e) The notice provided under Subsection (d) must state the estimated cost to the property owner of the improvements and state that the cost may be increased by not more than 10 percent because of changes without the written consent of the owner. The municipality shall give the notice to the owner by personal delivery or by depositing the notice in the United States mail with postage prepaid.

(f) To be valid, the owner's written consent must:

(1) state that the person giving the consent is the property owner or the authorized representative of the property owner;

(2) state the owner's address; and

(3) state that:

(A) the consent is given freely;

(B) the owner understands that as a result of the assessment a lien attaches to the property for the total cost of the improvements;

(C) the municipality will not pay any part of the cost of the improvements; and

(D) the owner will repay the cost to the municipality on or before the fifth anniversary of the date the municipality certifies the work is completed.

(g) The municipality shall file the written consent of the property owner with the municipal clerk or secretary.

(h) If the municipality contracts with another person to perform the work, the contract must be awarded in compliance with the competitive bidding requirements applicable to the municipality. The provisions of the contract must comply with any law applicable to the construction of public improvements by the municipality. The contract may be changed as necessary for the successful completion of

the work, but the contract price may not be increased by more than 10 percent because of those changes without the written consent of the owner as provided by Subsection (e).

(i) When the work is completed, the municipality shall issue a certificate certifying that the work has been completed and the cost of the improvements. The municipality shall file the certificate with the county clerk of the county in which the property is located and shall deliver a copy of the certificate to the property owner. The certificate must contain the legal description of the land and name of the property owner. The lien created pursuant to this section shall attach and arise when the certificate is recorded in the real property records. The lien is binding on subsequent grantees, lienholders, or other transferees of an interest in the property who acquire such interest after the recording of the certificate.

(j) The property owner, on or before the fifth anniversary of the date of the issuance of the certificate, must pay the municipality the amount that the completed work cost the municipality as evidenced by the certificate, plus simple interest in an amount not to exceed 10 percent a year as set by the governing body of the municipality. On payment of the principal amount and accrued interest, the municipality shall issue a release of the assessment and lien. The release may be filed for record as provided by law.

(k) If the property owner does not pay the assessment during the five-year period, the municipality may enforce the lien on the property in the same manner in which it is authorized by law to enforce the lien for a paving or other assessment.

(1) that is located in a county that has a population of
more than 1.3 million; and

(2) in which a customer's sewer service is provided by a
municipality or conservation and reclamation district that also

water service is provided by another entity.

(b) For each person the water service provider serves in an
area to which this section applies, the water service provider shall
provide the municipality or district with any relevant customer
information so that the municipality or district may bill users of
the sewer service directly and verify the water consumption of users.
Relevant customer information provided under this section includes

providing services to the municipality or district under this
section. Incremental costs are limited to only those costs that are

the costs incurred by other water utility providers. Only if
requested by the wastewater provider, the water service provider must
provide the municipality or district with documentation certified by
a certified public accountant of the reasonable and actual

incremental costs for providing services to the municipality or district under this section.

(d) A municipality or conservation and reclamation district may provide written notice to a person to whom the municipality's or district's sewer service system provides service if the person has failed to pay for the service for more than 90 days. The notice may be sent by mail or hand-delivered to the location at which the sewer service is provided.

(b) To the extent this section conflicts with a municipal charter provision, this section controls.

(c) A municipality may buy, own, construct, maintain, and operate a combined heating and power system or plant and related infrastructure.

(d) The governing body of the municipality may designate a combined heating and power economic development district that includes territory that:

- (1) is within three miles of the combined heating and power plant;
- (2) is wholly located within the corporate boundaries of the municipality; and
- (3) does not have an interstate or federal highway located within the boundaries of the district on the date the territory is designated.

(e) The municipality may sell an energy commodity from the system or plant, including electricity, chilled water, steam, or gas. The municipality may sell gas only to industrial customers located in the combined heating and power economic development district.

SUBTITLE B. COUNTY WATER**CHAPTER 561. WATER CONTROL BY COUNTIES**

Sec. 561.001. FLOOD CONTROL PROPERTY; CONDEMNATION. (a) A county may acquire public or private real property, including easements and rights-of-way, for the purpose of building canals, drains, levees, and other improvements to provide for flood control and water outlets. The county has the right of eminent domain to make an acquisition under this section.

(b) An appeal from a finding and assessment of damages by special commissioners in a condemnation case does not act to suspend the work for which the property is acquired.

(c) A county may, if the commissioners court of the county considers it necessary, obtain the fee title to the property that is the subject of the condemnation. However, a county may not obtain through condemnation the fee title to property lawfully used or occupied by a public utility, railroad, canal, levee, or any other person devoting its property to a public use. This prohibition does not prevent the county from condemning an easement or a right-of-way in favor of the county.

(d) If the commissioners court considers it necessary to condemn an easement on the property of a person that also has the power of eminent domain, the expense of acquisition, construction, and maintenance of the flood control or drainage project is the

obligation of the county, flood control district, or drainage district, as the case may be.

(b) The contract may contain any provisions that the governing bodies of the contracting entities consider necessary.

(c) The contracting entities may provide by contract, on mutually agreeable terms, that they shall jointly maintain the project or that one of them shall maintain the project under its exclusive direction and control while the other entity contributes to the expense of maintenance.

The contract may provide that payments due under the contract are payable from and secured by a pledge of any revenue of the county or the county's ad valorem taxes or a combination of those

revenues and taxes.

(b) The contract may divide or delegate among the contracting parties the responsibility and cost of carrying out the plans and programs and may be for a specified term of years or may terminate when the plans or programs have been accomplished.

(A) the damage or claim arises from or is connected with the action of the United States or its officers, agents, or employees in entering, occupying, constructing on, or exercising a right in or to land located in the county; and

(B) the action by the United States or its officers, agents, or employees is in connection with the construction, reconstruction, alteration, extension, improvement, maintenance, or operation of flood control works or works that are connected or incidental to flood control works;
